

Equine influenza - (Wild)
Equine proplasmidosis - (Wild)
Equine viral arteritis - (Wild)
Glanders - (Wild)
Haemorrhagic septicaemia - (Wild)
Infectious bursal disease (Gumboro) - (Wild)
Mycobacteriosis - (Wild)
Porcine cysticercosis - (Domestic)
Porcine cysticercosis - (Wild)
Porcine reproductive/respiratory syndr. - (Wild)
Pulmonary diseases - (Wild)
Scrapie - (Wild)
Sheep pox and goat pox - (Wild)
Small live beetle infestation - (Domestic)
Thelaziosis - (Domestic)
Thelaziosis - (Wild)
Transmissible gastroenteritis - (Wild)
Trichomonosis - (Wild)
Tropilaelaps infestation of honey bees - (Domestic)
Turkey rhinotracheitis - (Domestic)

Info by Country/Territory Choose by: Single country * Region : Europe * Country : Iceland *

Animal health situation

This page lists what diseases have been reported as present, absent or never reported in Iceland. It does not include diseases for which no information has been provided in a selected calendar year.

Current notifiable diseases - Key

The following table lists officially notifiable diseases in each country.

Notifiable No

Year: 2014 *

Iceland

NOTE: This information is based only on a single six-monthly report Jan-Jun

Diseases present in the Country

Disease	Domestic		Wild	
	Notifiable	Status	Notifiable	Status
Infectious salmon anaemia virus (ISPA) (infection with)	✓	Confirmed infection (no clinical disease)	✓	Not reported for this period (since unknown)
Paratuberculosis	✓	Disease limited to one or more zones	✓	Not reported for this period (since unknown)

Diseases never reported

Disease	Notifiable	Type of surveillance	Note
Acariasis of honey bees	✓	General surveillance	
African horse sickness	✓	General surveillance	
African swine fever	✓	General surveillance	
American foulbrood of honey bees	✓	General surveillance	
Aujeszky's disease	✓	General surveillance	
Avian chlamydiosis	✓	General surveillance	
Avian influenza	✓	General surveillance	
Avian infectious laryngotracheitis	✓	General surveillance	
Avian myxomatosis (M. synoviae)	✓	General and targeted surveillance	
Bluetongue	✓	General surveillance	
Bov. genital campylobacteriosis	✓	General surveillance	
Bovine anaplasmosis	✓	General surveillance	
Bovine babesiosis	✓	General surveillance	
Bovine spongiform encephalopathy	✓	General and targeted surveillance	
Bovine viral diarrhoea	✓	General and targeted surveillance	
Brucellosis (Brucella abortus)	✓	General and targeted surveillance	
Brucellosis (Brucella melitensis)	✓	General and targeted surveillance	
Brucellosis (Brucella suis)	✓	General surveillance	
Camel pox	✓	General surveillance	
Caprine arthritis/encephalitis	✓	General surveillance	
Contagious agalactia	✓	General surveillance	
Contagious bov. pleuropneumonia	✓	General surveillance	
Contagious cap. pleuropneumonia	✓	General surveillance	
Contagious equine metritis	✓	General surveillance	
Crayfish plague (Aphanomyces astaeus)	✓	General surveillance	
Cinean Congo haemorrhagic fever	✓	General surveillance	
Dourine	✓	General surveillance	
Duck virus hepatitis	✓	General surveillance	
Echinococcus multilocularis (infection with)	✓	General surveillance	
Encephalomyelitis (West.)	✓	General surveillance	
Enzootic abortion (diagnosis)	✓	General surveillance	
Enzootic bovine leukosis	✓	General and targeted surveillance	
Epizoot. haematopoietic necrosis	✓	General surveillance	
Epizootic haemorrhagic disease	✓	General surveillance	
Epizootic ulcerative syndrome	✓	General surveillance	
Equid herpesvirus-1 (EHV-1) (infection with)	✓	General and targeted surveillance	
Equine encephalomyelitis (Eastern)	✓	General surveillance	
Equine infectious anaemia	✓	General and targeted surveillance	

Equine influenza	✓	General and targeted surveillance
Equine peripneumonia	✓	General Surveillance
Equine viral arteritis	✓	General and targeted surveillance
European foulbrood of honey bees	✓	General Surveillance
Food and mouth disease	✓	General Surveillance
Glanders	✓	General Surveillance
Haemorrhagic septicemia	✓	General Surveillance
Hearwater	✓	General Surveillance
Highly path. avian influenza	✓	General and targeted surveillance
Infect. haematopoietic encephalis	✓	General and targeted surveillance
Infection with adeno herpes-like virus	✓	General Surveillance
Infection with Batrachochytrium dendrobatidis	✓	General Surveillance
Infection with Boranina exitiosa	✓	General Surveillance
Infection with Boranina oostiae	✓	General Surveillance
Infection with Gyrodactylus salaris	✓	General Surveillance
Infection with Marek's refringens	✓	General Surveillance
Infection with ostreid herpesvirus-1 microvariant	✓	General Surveillance
Infection with Perkinsus marinus	✓	General Surveillance
Infection with Perkinsus olseni	✓	General Surveillance
Infection with ranavirus	✓	General Surveillance
Infection with salmonid alphavirus	✓	General Surveillance
Infectious hypodermal and haematopoietic necrosis	✓	General Surveillance
Infectious myonecrosis	✓	General Surveillance
Japanese encephalitis	✓	General Surveillance
Koi herpesvirus disease	✓	General Surveillance
Leishmaniasis	✓	General Surveillance
Low pathogenic avian influenza (poultry)	✓	General and targeted surveillance
Lumpy skin disease	✓	General Surveillance
Mycotomiasis	✓	General Surveillance
N. w. scabworm (C. hominivorax)	✓	General Surveillance
Nasob sheep disease	✓	General Surveillance
Necrotising hepatopancreatitis	✓	General Surveillance
Newcastle disease	✓	General and targeted surveillance
Nipah virus encephalitis	✓	General Surveillance
O. w. scabworm (C. bezelae)	✓	General Surveillance
Ovine epizootic (B. ovis)	✓	General and targeted surveillance
Peste des petits ruminants	✓	General Surveillance
Porcine cysticercosis	✓	General Surveillance
Porcine reproductive/respiratory sync.	✓	General and targeted surveillance
Q fever	✓	General and targeted surveillance
Rabies	✓	General Surveillance
Red sea bream ichthyonal disease	✓	General Surveillance
Rift Valley fever	✓	General Surveillance
Rinderpest	✓	General Surveillance
Salmonellos (S. abortusovis)	✓	General Surveillance
Sheep pox and goat pox	✓	General Surveillance
Small hive beetle infestation	✓	General Surveillance
Spring viraemia of carp	✓	General Surveillance
Suiri (Trypanosoma evansi)	✓	General Surveillance
Swine vesicular disease	✓	General Surveillance
Taura syndrome	✓	General Surveillance
Theileriosis	✓	General Surveillance
Transmissible gastroenteritis	✓	General and targeted surveillance
Trichinellosis	✓	General and targeted surveillance
Trichomonosis	✓	General Surveillance
Tropilaelaps infestation of honey bees	✓	General Surveillance
Trypanosomosis	✓	General Surveillance
Tuberculosis	✓	General Surveillance
Turkey microtracheitis	✓	General Surveillance
Vermosis of honey bees	✓	General Surveillance
Venezuelan equ. encephalomyelitis	✓	General Surveillance

Vesicular stomatitis	✓	General Surveillance
Viral haemorrhagic septicemia	✓	General and targeted surveillance
West Nile Fever	✓	General Surveillance
White spot disease	✓	General Surveillance
White tail disease	✓	General Surveillance
Yellow head disease	✓	General Surveillance

Diseases not reported in 2014

Domestic				Wild		
Disease	Notifiable	Last occurrence	Surveillance	Note	Notifiable	Last occurrence
Anthrax	✓	2004	General Surveillance	✓	✓	Unknown
Avian infectious bronchitis	✓	1998	General and targeted surveillance	✓	✓	Unknown
Bovine tuberculosis	✓	1959	General Surveillance	✓	✓	Unknown
Classical swine fever	✓	1953	General Surveillance	✓	✓	Unknown
Echinococcus granulosus (infection with)	✓	1979	General Surveillance	✓	✓	Unknown
Fowl typhoid	✓	1953	General Surveillance	✓	✓	Unknown
Influenza rhinotracheit. (IBRD/PIV)	✓	07/10/2013	General and targeted surveillance	✓	✓	Unknown

WAHID home page Country information Disease information Disease control measures Data between 1998 and 2004

Info by Country/Territory Choose by: Single country * Region : Europe * Country : Austria * Animal health situation

This page lists what diseases have been reported as present, absent or never reported in Austria. The following table lists officially notifiable diseases for which no information has been provided in a selected calendar year.

Current notifiable diseases - Key

The following table lists officially notifiable disease in each country.

Notifiable No

Year: 2014

Austria

NOTE: This information is based only on a single six-monthly report Jan-Jan

Diseases present in the Country

Disease	Domestic		Wild	
	Notifiable	Status	Notifiable	Status
American foulbrood of honey bees		Critical Disease		
Avian chlamydiosis		Critical Disease		No information
Bovine tuberculosis		Confirmed infection (no clinical disease)		Not reported for this Period (since 2010)
Bovine viral diarrhoea		Critical Disease		Not reported for this Period (since Unknown)
Paratuberculosis		Critical Disease		No information
Viral haemorrhagic septicaemia		Critical Disease		No information

Diseases never reported

Disease	Notifiable	Type of surveillance	Note
African horse adriess			
African swine fever			
Camel pox			
Encephalomyelitis (West.)			
Epizoot. haematopoietic necrosis			
Epizoot. ulcerative syndrome			
Equine encephalomyelitis (Eastern)			
Infection with oedematous vesicular disease			
Infectious salmon anaemia virus (IPRI-related or IPRI genotype) (infection with)			
Japanese encephalitis			
Koi herpesvirus disease			
Lumpy skin disease			
N. w. screwworm (C. hominivorax)			
O. w. screwworm (C. bezziana)			
Peste des petits ruminants			
Rift Valley fever			
Small hive beetle infestation			
Tropilaelaps infestation of honey bees			
Venezuelan equine encephalomyelitis			
White spot disease		General Surveillance

Info by Country/Territory Choose by: Single country * Region : Europe * Country : Netherlands
Animal health situation

This page lists what diseases have been reported as present, absent or newer
in the Netherlands. The table lists officially notifiable diseases for
which no information has been provided in a selected calendar year.

Current notifiable diseases - Key

The following table lists officially notifiable disease in each country.

Notifiable Yes
Notifiable No

Year: 2014 *

Netherlands

NOTE: This information is based only on a single six-monthly report Jan-Jun

Diseases present in the Country

Disease	Domestic		Wild	
	Notifiable	Status	Notifiable	Status
Avian chlamydiosis	✓	Clinical Disease	✗	Confirmed infection (no clinical disease)
Avian infect. laryngotracheitis	✗	Clinical Disease	✗	No information
Avian infectious bronchitis	✗	Clinical Disease	✗	No information
Avian myxomatosis (M. myxovir)	✗	Clinical Disease	✗	No information
Box, genital campylobacteriosis	✓	Confirmed infection (no clinical disease)	✗	No information
Bovine viral diarrhoea	✓	Clinical Disease	✗	Confirmed infection (no clinical disease)
Caprine arthritis/encephalitis	✗	Clinical Disease	✗	No information
Contagious equine metritis	✗	Confirmed infection (no clinical disease)	✗	No information
Crayfish plague (Aphanomyces astaci)	✗	Not reported for this Period (since Unknown)	✓	Suspected (not confirmed)
Equid herpesvirus-1 (EHV-1) (infection with)	✗	Confirmed infection (no clinical disease)	✗	No information
Equine influenza	✓	Suspected (not confirmed)	✗	No information
Equine viral arteritis	✗	Confirmed infection (no clinical disease)	✗	Not reported for this Period (since Unknown)
European foulbrood of honey bees	✓	Clinical Disease	✗	Not reported for this Period (since 06/2013)
Inf. bov. rhinotracheit. (IBR/PIV)	✗	Clinical Disease	✗	No information
Infec. larval disease (Gambusia)	✗	Clinical Disease	✗	Confirmed infection (no clinical disease)
Infection with Boranema oestræ	✓	Suspected (not confirmed)	✓	Disease limited to one or more zones
Koi herpesvirus disease	✓	Clinical Disease	✓	No information
Low pathogenic avian influenza (poultry)	✗	Clinical Disease	✗	No information
Measles virus	✓	Clinical Disease	✗	No information
Myxomatosis (M. gallipaludum)	✓	Clinical Disease	✗	Confirmed infection (no clinical disease)
Myxomatosis	✓	Suspected (not confirmed)	✗	Confirmed infection (no clinical disease)
Paratuberculosis	✗	Confirmed infection (no clinical disease)	✓	No information
Porcine reproductive/respiratory syndr.	✗	Clinical Disease	✗	Confirmed infection (no clinical disease)
Q fever	✓	Suspected (not confirmed)	✗	Clinical Disease
Rabbit haemorrhagic disease	✓	Not reported for this Period (since 15/08/2012)	✗	Confirmed infection (no clinical disease)
Rabies	✗	No information	✗	Confirmed infection (no clinical disease)
Tetchnomiasis	✗	Not reported for this Period (since 04/20/2013)	✗	Confirmed infection (no clinical disease)
Tularemia	✓	Clinical Disease	✗	Confirmed infection (no clinical disease)
Turkey rhinotracheitis	✗	Clinical Disease	✗	Confirmed infection (no clinical disease)
Vermosis of honey bees	✗	Clinical Disease	✗	Confirmed infection (no clinical disease)

Info by Country/Territory Choose by: Single country Entire World Country : Spain Animal health situation

This page lists wild diseases have been reported as present, absent or never reported in Spain. The following table lists officially notifiable diseases for which no information has been provided in a selected calendar year.

Current notifiable diseases - Key
The following table lists officially notifiable disease in each country.
Notifiable
Notifiable

Year: 2014 Diseases present in the Country Spain

Domestic			Wild		
Disease	Notifiable	Status	Notifiable	Status	Note
American foulbrood of honey bees		Disease present			
Aujeszky's disease		Infection/infestation			Infection/infestation
Avian myxomatosis (M. myxovirae)		Infection/infestation limited to one or more zones			No information
Bacteraemia		Disease limited to one or more zones			Disease limited to one or more zones
Box, genital campylobacteriosis		Infection/infestation			No information
Bovine anaplasmosis		Disease limited to one or more zones			Absent (since 2004)
Bovine babesiosis		Disease limited to one or more zones			Absent (since Unknown)
Bovine spongiform encephalopathy		Disease limited to one or more zones			Absent (since Unknown)
Bovine tuberculosis		Infection/infestation			Infection/infestation
Bovine viral diarrhoea		Infection/infestation			Infection/infestation limited to one or more zones
Brucellosis (Brucella abortus)		Infection/infestation			Infection/infestation
Brucellosis (Brucella melitensis)		Infection/infestation			Disease limited to one or more zones
Brucellosis (Brucella suis)		Infection/infestation			Infection/infestation
Caprine arthritis/encephalitis		Disease limited to one or more zones			Disease limited to one or more zones
Contagious agalactia		Disease limited to one or more zones			Disease limited to one or more zones
Contagious equine metritis		Infection/infestation limited to one or more zones			Infection/infestation limited to one or more zones
Echinococcus granulosus (infection with)		Infection/infestation limited to one or more zones			Infection/infestation limited to one or more zones
Enzootic abortion (chlamydiosis)		Disease present			No information
Equid herpesvirus-1 (EHV-1) (infection with)		Infection/infestation limited to one or more zones			No information
Equine influenza		Infection/infestation limited to one or more zones			Absent (since Unknown)
Equine leptospirosis		Disease limited to one or more zones			No information
Equine viral arteritis		Disease limited to one or more zones			Absent (since Unknown)
Haemorrhagic septicaemia		Infection/infestation limited to one or more zones			No information
Inf-box/rhinotracheit. (BRI/PIV)		Infection/infestation			Disease limited to one or more zones
Infect. buccal disease (Gumboro)		Infection/infestation limited to one or more zones			Absent (since Unknown)
Infection with Boraniam edoia		Disease limited to one or more zones			Disease limited to one or more zones
Infection with Boraniam onstae		Disease limited to one or more zones			Disease limited to one or more zones
Infection with Mannheimia ruminantium		Disease limited to one or more zones			Disease limited to one or more zones
Infection with (alpha) herpesvirus-1 microvariant		Infection/infestation limited to one or more zones			Infection/infestation limited to one or more zones
Infection with Pseudomonas aeruginosa		Disease limited to one or more zones			Absent (since Unknown)
Infection with salmonid alphavirus		Infection/infestation limited to one or more zones			Infection/infestation limited to one or more zones
Leishmaniasis		Disease present			No information
Mastitis		Disease present			No information
Myxomatosis (M. gallopavicum)		Infection/infestation limited to one or more zones			No information
Myxomatosis		Disease present			Disease present
Ovine epizootic (B. ovis)		Disease limited to one or more zones			Disease limited to one or more zones
Paratuberculosis		Disease present			Disease present
Porcine cyclospirosis		Infection/infestation limited to one or more zones			No information
Porcine reproductive/respiratory syndr.		Disease limited to one or more zones			No information
Q fever		Disease limited to one or more zones			Disease limited to one or more zones
Rabbit haemorrhagic disease		Disease present			Disease present
Rabies		Disease limited to one or more zones			Disease limited to one or more zones
Scrapie		Disease limited to one or more zones			Absent (since Unknown)
Trichinellosis		Infection/infestation limited to one or more zones			Infection/infestation
Trichomonosis		Disease limited to one or more zones			Disease limited to one or more zones
Tularemia		Infection/infestation limited to one or more zones			Disease limited to one or more zones
