## LIST OF TABLES

### 1 Foods

**Explanation**

- Food supply/demand
  - (1) Food Balance Sheet
    - a F.Y. 2014, Approximate
    - b F.Y. 2013, Official
    - c Transition of the annual net food supply per citizen
    - d Transition of food self-sufficiency ratio
  - (2) Demand and Supply of Government-Owned Rice, Wheat and Barley
    - a Rice
    - b Wheat and Barley (Food)
  - (3) Supply, Consumption, Sales, Stock, etc. of Rice per Commercial Farm Household Total of Paddy Field Non-glutinous Rice, Paddy Field Glutinous Rice and Paddy Field Non-glutinous Rice

### 2 Food Consumption

- (1) National Nutrition
  - a Nutrient Intake Per Person Per Day (1 and over)
  - b Nutrient Intake Per Person Per Day by Food Group (1 and over) (2013)
- (2) Prices of Food
  - a Consumer Price Index (2010=100, National)
  - b Retail Prices of Major Foods in the Six Largest Cities
- (3) Food Expenditures per Household
  - Yearly Amount of Expenditures and Quantities per Household by City with Prefectural Government (Two-or-more-person Households)
- (4) Food Waste
  - a Ratio of Food Waste in General Households by Type of Food
  - b Ratio of Leftover Food Weight at Diners and Restaurants (F.Y.2015)

### 3 Collaboration of Primary, Secondary, and Tertiary Industry

- (1) Efforts for Business Related to Agricultural Production Status of Efforts in Community-based Farm Cooperatives for Business except Agricultural Production (As of Mar. 1, 2015)
  - a Rate of Community-based farm cooperatives by Business Currently in Progress
  - b Rate of community-based farm cooperatives by Business Planned to be Implemented in the Future
- (2) Tackling Situation in Business on Agricultural and Fishery Production, etc. (F.Y. 2013)
  - a Annual Sales and Annual Ratio of Business Entities by Sales Amount
  - b Number of Workers and Ratio of Male and Female Employees
  - c Annual Purchase Price by Production Area (Sales as for Direct market for agricultural product)
  - d Annual Sales and Number of Entities of Businesses on Agricultural Production by Prefecture
  - e Annual Sales and Number of Entities of Businesses on Fishery Production by Prefecture

### 4 Trends of The Food Industry and Marketing Costs, etc.

- (1) Structure of Food Industry
  - a Structure of Food Manufactures and Shipment Status
    - (Establishments with more than 4 persons engaged)
  - b Structure of Food Wholesale and Sales Status
(2) Recycling of Circulating Food Resources (Estimations of Whole Food Industry)
   a Annual Amount of Food Waste Generated, Controlled Amount, and Recycling Rate .......... 80
   b Recycled Food Wastes, etc. by Use as Food Wastes ............................................. 80
   c F.Y. 2013 Details
      (a) Annual Amount of Food Waste Generated, Controlled Amount, and Recycling Rate .......... 82
      (b) Recycled Food Wastes, etc. by Use as Food Wastes ........................................... 84

(3) Trends in Imputed Value and Ratios of Foods and Beverages Expenses by Sector from
   Final Consumption Expenditure ................................................................. 86

(4) Distribution Costs of Vegetables and Fruits (F.Y. 2013)
   a Collecting/Shipping and Sales Costs of Major Vegetables and Fruits (per 100 kg) ........ 88
   b Distribution Costs of Wholesaler (per wholesaler) .................................................. 90
   c Distribution Costs of Retailers (per retailer) ......................................................... 90

(5) Distribution Costs of Fishery Products (F.Y. 2013)
   a Distribution Costs of Wholesalers in Producing Areas (per Wholesaler) .................... 91
   b Distribution Costs of Shipment Dealers in Producing Areas (per Dealer) .................. 91
   c Distribution Costs of Wholesaler (per Wholesaler) ................................................ 92
   d Distribution Costs of Retailers (per Retailer) ....................................................... 92

5 Japan Trade of Agricultural, Forestry and Fishery Products
   (1) Exports .............................................................................................................. 94
   (2) Imports ............................................................................................................ 102

6 Food Safety
   (1) Number of Certifications of Operators of Organic Agricultural Products and of Farm Households ...... 118
   (2) Grading by Certified Operators (F.Y. 2014)
      a Organic Agricultural Products .............................................................................. 119
      b Organic Processed Foods ...................................................................................... 120

II Agricultural and Forestal Management Entities

Explanation .............................................................................................................. 122

1 Agricultural and Forestal Management Entities
   (1) Number of Agricultural and Forestal Management Entities ..................................... 126
      [Reference] Number of Agricultural Management Entities (Survey on Movement of
               Agricultural Structure) .................................................................................... 126
   (2) Number of Agricultural and Forestal Management Entities by Size of Cultivated Land under management (Survey on Movement of Agricultural Structure)
   (3) Number of Agricultural and Forestal Management Entities by Type of Organization .................. 128

2 Agricultural Management Entities
   (1) Number of Agricultural Management Entities by Type of Organization ..................... 130
   (2) Number of Agricultural Management Entities by Size of Cultivated Land under management .......... 132
      [Reference] Number of Agricultural Management Entities by Size of Cultivated Land under management (Survey on Movement of Agricultural Structure)
3 Agricultural Management Entities (Organized Management Entities)

(1) Number of Agricultural Management Entities by Type of Organization .......... 162
(2) Number of Agricultural Management Entities by Size of Cultivated Land Under Management .......... 164
(3) Number of Agricultural Management Entities by Size of Sales Value of Agricultural Products .......... 166
(4) Number of Agricultural Management Entities by Type of Farming .......... 168
(5) Status of Cultivated Land Under Management of Agricultural Management Entities .......... 170
(6) Area by Size of Cultivated Land Under Management of Agricultural Management Entities .......... 174
(7) Farming engaged in situation of management, directors, etc. .......... 176
(8) Employed Labor .......... 178
(9) Number of Agricultural Management Entities by Type of Contracted Paddy Field Rice Farming and Contracted Area .......... 180
(10) Number of Agricultural Management Entities Engaged in Agricultural Production Related Business by Type of Business .......... 182
(11) Number of Agricultural Management Entities by Shipping Destination of Agricultural Products .......... 184
(12) Number of Agricultural Management Entities by Shipping Destination of Agricultural Products with top sales .......... 186

4 Community-based Farm Cooperatives

(1) Number of Community-based Farm Cooperatives by Type of Organization .......... 187
(2) Number of Community-based Farm Cooperatives by Status of Joining the Countermeasure for Farming Income Stabilization Program for Farmers Support .......... 188
(3) Number of Community-based Farm Cooperatives by Size of Cultivated Area
   a Number of Community-based Farm Cooperatives by Size of Cultivated Area Under Management .......... 189
   b Number of Community-based Farm Cooperatives by Size of Cultivated Area Commission Farming .......... 190
(4) Number of Community-based Farm Cooperatives by Number of Farm Households .......... 191
(5) Number of Community-based Farm Cooperatives by Activity (Multiple Answers) .................................. 192
5 Activities of Community-based Farm Cooperatives (As of Mar. 1, 2015)
(1) Number of Community-based Farm Cooperatives under Overall Management and Operations .......... 194
(2) Rate of Community-based Farm Cooperatives by Activity Type (Multiple Answers) .......................... 194
(3) Rate of Community-based Farm Cooperatives by With women mainly engaged in farming .................. 194
(4) Rate of Community-based Farm Cooperatives Households by Crop Status
   a Rate of Community-based Farm Cooperatives Households by Crop (Multiple Answers) .................. 195
   b Rate of Community-based Farm Cooperatives Households by Crop Combination ......................... 196
   c Rate of Community-based Farm Cooperatives Households by that Intend to Start Producing New Crops (Crop to be produced multiple answers) .......................... 197
(5) Rate of Community-based Farm Cooperatives Households by Size of Income
   a Rate of Community-based Farm Cooperatives Households by Total Income ............................... 197
   b Rate of Community-based Farm Cooperatives Households by Income from the Sale of Agricultural Products .......... 198
   c Rate of Community-based Farm Cooperatives Households by Consignment Fees ......................... 198
6 Fatal accidents in agriculture
   (1) Situation of fatalities during agricultural labour ................................................................. 199
   (2) Accidents rates by age group .......................................................................................... 200

III Farm Households

Explanation .......................................................................................................................... 201
1 Number of Farm Households and Households Members ............................................................ 204
2 Number of Commercial Farm Households Classified by the Status of Farm Business .................. 205
3 Number of Commercial Farm Households Classified by Full-time and Part-time ......................... 206
4 Number of Commercial Farm Households by Size of Cultivated Land Under Management .......... 208
5 Number of Commercial Farm Households by Size of Sales Value of Agricultural Products .......... 210
6 Number of Commercial Farm Households by Type of Farming .................................................. 212
7 Number of Commercial Farm Households by No.1 Sale Sector of Agricultural Products in Sales Value .............................................................. 214
8 Number of Persons Engaged in Farming by Number of Days Engaged in Subsistence Farming (Commercial Farm Households) ...................................................... 216
9 Number of Population Mainly Engaged in Farming by Age Group (Commercial Farm Households) .......... 218
10 Core Persons Mainly Engaged in Farming by Age Group (Commercial Farm Households) ............... 222
11 Average Age of Persons Engaged in Farming, etc. .......................................................................... 226
12 Number of Farm Households with Abandoned Cultivated Land and Area ................................. 228
13 Status of Cultivated Land Under Management (Commercial Farm Households) .......................... 230
14 Areas by Size of Cultivated Land Under Management (Commercial Farm Households) ............... 234
15 Number of Farm Households with Cultivated Land Under Management ....................................... 236
16 Number of Farm Households with Cultivated Land Rented from Others and Area ..................... 237
17 Number of Farm Households with Cultivated Land Rent to Others and Area .............................. 238
18 Number of Farm Households with Cultivated Land Rented from Others and Area (Commercial Farm Households) ................................................................. 239
19 Number of Farm Households with Cultivated Land Rent to Others and Area (Commercial Farm Households) ................................................................. 240
Survey on Movement of Agricultural Structure

1 Number of Commercial Farm Households Classified by the Status of Farm Business .......................... 242
2 Number of Commercial Farm Households Classified by Full-time and Part-time .......................... 242
3 Number of Commercial Farm Households by Size of Sales Value of Agricultural Products .......... 243
4 Number of Commercial Farm Households by Type of Farming .................................................. 243
5 Number of Commercial Farm Households by Size of Cultivated Land Under Management
   (1) Hokkaido .................................................................................................................................... 244
   (2) Prefectures (Excluding data of Hokkaido) .................................................................................. 244
6 Number of Cultivated Land Under Management and Area per Household .................................. 244
7 Number of Rented Cultivated Land and Area per Household ......................................................... 245
8 Number of Farm Households Member by Age Group (Commercial Farm Households)
   (1) Total of Male and Female .......................................................................................................... 245
   (2) Male ........................................................................................................................................ 245
   (3) Female ..................................................................................................................................... 245
9 Number of Population Engaged in Farming by Age Group (Commercial Farm Households)
   (1) Total of Male and Female .......................................................................................................... 246
   (2) Male ........................................................................................................................................ 246
   (3) Female ..................................................................................................................................... 246
10 Core Persons Mainly Engaged in Farming by Age Group (Commercial Farm Households)
   (1) Total of Male and Female .......................................................................................................... 247
   (2) Male ........................................................................................................................................ 247
   (3) Female ..................................................................................................................................... 247

Newcomers in Agriculture

(1) Number of New Employees in Agriculture by Employment Type .............................................. 248
(2) Number of New Self-employed Workers in Agriculture by Age Group .................................... 248
(3) Number of Newly-Employed Workers in Agriculture by Age Group ...................................... 249
(4) Number of New Employees by Age Group .............................................................................. 249

IV Farm Management and Economy

Explanation ........................................................................................................................................... 250

1 Farm Management and Economy by Agricultural Region (Individual Management, Per Household)
   (1) Summary of Farm Management and Economy ........................................................................ 258
   (2) Agricultural Gross Income ....................................................................................................... 260
   (3) Agricultural Expenditures .......................................................................................................... 260
   (4) Non-agricultural Gross Income, Non-agricultural Expenditures, Income from Annuity, etc. .... 262
   (5) Working Members, Working Hours and Area under Management ........................................ 262
   (6) Agricultural Fixed Capital Value and Property of Farm Households (Value at the Beginning
       of the Year) ............................................................................................................................... 264
   (7) Deposits and Debts (Balance of Farm Household at the Year End) ........................................ 265
2 Farm Management and Economy by the Status of Farm Business
   (Individual Management, Per Household) (2013)
   (1) Summary of Farm Management and Economy ........................................................................ 266
   (2) Agricultural Gross Income ....................................................................................................... 266
   (3) Agricultural Expenditures .......................................................................................................... 268
(4) Non-agricultural Gross Income, Non-agricultural Expenditures, Income from Annuity, etc. .......................... 268
(5) Working Members, Working Hours and Area under Management .............................................................. 270
(6) Agricultural Fixed Capital Value and Property of Farm Households

  (Value at the Beginning of the Year) .......................... 270
(7) Deposits and Debts (Balance of Farm Household at the Year End) .......................................................... 271
3 Farm Management and Economy by Agriculture Labor Force Owned

  (Individual Management, Per Household) (2013)
(1) Summary of Farm Management and Economy .......................................................... 272
(2) Agricultural Gross Income .......................................................... 274
(3) Agricultural Expenditures .......................................................... 274
(4) Non-agricultural Gross Income, Non-agricultural Expenditures, Income from Annuity, etc. .......................... 276
(5) Working Members, Working Hours and Area under Management .............................................................. 276
(6) Agricultural Fixed Capital Value and Property of Farm Households

  (Value at the Beginning of the Year) .......................... 278
(7) Deposits and Debts (Balance of Farm Household at the Year End) .......................................................... 279
4 Farm Management and Economy of Household with Certified Farmer

  (Individual Management, Per Household) (2013)
(1) Summary of Farm Management and Economy .......................................................... 280
(2) Agricultural Gross Income .......................................................... 280
(3) Agricultural Expenditures .......................................................... 280
(4) Non-agricultural Gross Income, Non-agricultural Expenditures, Income from Annuity, etc. .......................... 282
(5) Working Members, Working Hours and Area under Management .............................................................. 282
(6) Agricultural Fixed Capital Value and Property of Farm Households

  (Value at the Beginning of the Year) .......................... 282
(7) Deposits and Debts (Balance of Farm Household at the Year End) .......................................................... 283
5 Farm Management and Economy by Farming Type (Individual Management, Per Household) (2013)

(1) Summary of Farm Management and Economy .......................................................... 284
(2) Agricultural Gross Income .......................................................... 286
(3) Agricultural Expenditures .......................................................... 286
(4) Non-agricultural Gross Income, Non-agricultural Expenditures, Income from Annuity, etc. .......................... 290
(5) Working Members, Working Hours and Area under Management .............................................................. 292
(6) Agricultural Fixed Capital Value and Property of Farm Households

  (Value at the Beginning of the Year) .......................... 294
(7) Deposits and Debts (Balance of Farm Household at the Year End) .......................................................... 295
6 Farm Management and Economy by Sector for Each Farming Type

  (Individual Management, Per Household) (2013) .......................... 296
7 Farm Management and Economy by Farming Type (Management of Paddy Field Farming
  by Juridical Organization, National Average, Per Organization)

(1) Summary of Farm Management and Economy Balance .......................................................... 297
(2) Analytical Indicators, Conspectus of Management .......................................................... 297
8 Farm Management and Economy by Farming Type (Management of Paddy Field Farming
  by Private Organization (Community-Based Farm Cooperative), National Average)

(1) Summary of Farm Management and Economy Balance, Analytical Indicators .......................... 298
(2) Conspectus of Management .......................................................... 298
9 Production Costs
(1) Production Cost of Rice (Paddy Field Rice, Brown Rice Base)
   a Production Cost Per 60 kg by Agricultural Regions ........................................... 300
   b Production Cost Per 10a by Prefectures ............................................................ 302
(2) Production Cost of Wheat and Barley, Potatoes, Soybean, Industrial Crops, and Buckwheat 306
(3) Production Cost of Livestock .................................................................................... 310
(4) Production Cost of Rice for Judicial Organizations (Paddy Field Rice and Brown Rice)
   a Production Cost Per 60 kg ................................................................................... 318
   b Production Cost Per 10a ...................................................................................... 318

10 Records of Payments under Income Stabilization Measure for Farmers, etc.
(1) Number of Payments under Income Stabilization Measure for Farmers, etc. .................. 320
(2) Payment Amount under Income Stabilization Measure for Farmers, etc. ....................... 321
(3) Amount of Payments of Direct Payment Subsidy for Upland Field Crops by Target Crop 322
(4) Land Area Subject to Payments of Direct Payment Subsidy for Utilizing Paddy Fields
    and Direct Payment Subsidy for Rice .......................................................................... 323
(5) Number of payment, Area Subject to, and Payment Amount of Recycling Subsidy ........ 324
(6) Record of Subsidy Payments to Mitigate Impact of Reduced Income ......................... 324

11 Number of Certified Farmers and Status of Basic Plan Formulation ............................... 325

V Index Numbers of Commodity Prices in Agriculture
Explanation ....................................................................................................................... 326
1 Index Numbers of Agricultural Products (2010=100) ..................................................... 330
2 Index Numbers of Materials for Agricultural Production (2010=100) ............................... 330
3 Index Numbers of Price by Commodity (2010=100) ..................................................... 332

VI Agricultural Land
Explanation ....................................................................................................................... 344
1 Cultivated Land Area
   Area by Type of Cultivated Land .................................................................................. 348
2 Area of Cultivated Land Expanded or Ruined
   (1) Paddy Field ........................................................................................................... 350
   (2) Upland Field ......................................................................................................... 352
3 Dilapidated Farmland Area ......................................................................................... 354
4 Transfer of Rights and Change on Agricultural Land
   (1) Transfer of Rights on Agricultural Land for Cultivation
      a Transfer of Rights by the Agricultural Land Law ............................................... 356
      b Transfer of Rights by the Agricultural Management Reinforcement Law .......... 358
   (2) Change of Use of Agricultural Land ..................................................................... 360
5 Length of Rural Roads by Type of Management Organization ....................................... 362

VII Crops
Explanation ....................................................................................................................... 363
1 Rice
   (1) Paddy and Upland Rice Crop Area and Harvest Volume ......................................... 369
   (2) Efforts for Rice for New Demand, etc. by Use ....................................................... 371
2 Wheat and Barley (As Matured Grain) ........................................................................ 372
3 Sweet Potatoes ........................................................................................................... 375
Pulses and Miscellaneous Cereals: 376
Vegetables
(1) Major Vegetables: 378
(2) Other Vegetables: 395
Fruits and Nuts
(1) Major Fruits and Nuts: 398
(2) Other Fruits and Nuts: 403
Industrial Crops: 406
Feed and Forage Crops: 408
Flowers: 410
Area of Installed Glass and Vinyl Houses for Horticulture and the Total Area of Cultivation: 412
Aggregate of Planted Area of Crops and Utilization Rate of Cultivated Land: 414
Crop Damages
(1) Damaged Area of Paddy Field Rice and Quantity: 416
(2) Crop Damage by Wild Birds and Animals: 418
Livestock and Poultry
Explanation: 420
Number of Farm Households Feeding Livestock and Number of Livestock Fed etc.
(1) Dairy Cattle: 423
(2) Beef Cattle: 424
(3) Pigs: 425
(4) Layers: 425
(5) Broilers (Including Number of Shipping Farm Households and of Shipped Broilers): 425
Number of Farm Households Raising for Livestock by Size, etc.
(1) Dairy Cattle: 426
(2) Beef Cattle: 428
(3) Pigs: 430
(4) Layers: 430
(5) Broilers (Number of Shipping Farm Households by Size of Shipments): 430
[Reference] The Census of Agriculture and Forestry
Number of Feeding Management Entities and Livestock (Agricultural Management Entities): 431
Production of Raw Milk and Drinking Milk: 432
Number of Shipments of Chicks Fed: 433
Production of Hen Eggs: 433
Number of Seed Bulls: 434
Morbidity of Animal Infectious Diseases: 436
Materials for Agricultural Production
Explanation: 438
Fertilizers
(1) Production of Chemical Fertilizers: 440
(2) Production and Demand of Chemical Fertilizers (Net Ingredient): 440
Soil Conditioners
Amounts of Government-Designated Soil Conditioners Supplied: 441
Agricultural Chemicals
(1) Amounts of Registered Agricultural Chemicals ................................................................. 442
(2) Distribution of Agricultural Chemicals ............................................................................. 442

4 Feeds
(1) Production of Compound and Mixed Feed by Uses ......................................................... 443
(2) Quantity of Materials Used for Compound and Mixed Feed ......................................... 443

5 Agricultural Machinery
(1) Production of Major Agricultural Machinery ................................................................. 444
(2) Number of Owned Major Agricultural Machines (Agricultural management entities) .... 445

6 Foreign Trade of Materials for Agricultural Production ..................................................... 446

X Rural Areas

Explanation .................................................................................................................................. 450

1 Rural Communities
(1) Number of Rural Communities by Required Time to a Given DID ................................. 453
(2) Total of Area Per Rural Communities ............................................................................. 454
(3) Number of Rural Communities by Size of Cultivated Land ........................................ 455
(4) Number of Rural Communities by Size of Rate Cultivated Land .................................. 457
(5) Number of Rural Communities by Size of Rate Paddy Field ......................................... 460
(6) Number of Rural Communities with Functioning Communities ................................... 461
(7) Number of Rural Communities with Executive Associations ........................................ 461
(8) Gathering Status of Rural Communities
   a Number of Rural Communities by Number of Gathering Held during the Past Year .... 462
   b Number of Rural Communities by Gathering Agenda .................................................. 463
(9) Efforts for invigoration ....................................................................................................... 464

2 Conservation of Resources and The Environment
(1) Number of Agricultural Management Entities Engaged in Environment Conservation Farming
   by Approach ......................................................................................................................... 465
(2) Conservation of Resources
   a Farmland ....................................................................................................................... 466
   b Forests ............................................................................................................................ 466
   c Irrigation Ponds and Lakes ............................................................................................ 467
   d Rivers and Waterways .................................................................................................... 467
   e Agricultural Waterways ................................................................................................. 468

3 Changes in Number of Private Farmlands for Community Use and Area ....................... 469

4 Operation of The Direct Payment to Farmers in the Hilly and Mountainous Areas
(1) System Operation Status ................................................................................................. 470
(2) Overview of Rural Community Agreement .................................................................... 471
(3) Current Status of "Activities Promoting Multiple Functions" ....................................... 472

XI Forestry

Explanation .................................................................................................................................. 474

1 Number of Forestry Households by Size of Owned Forest Areas and Owned Forest Areas .... 478

2 Forestal Management Entities
(1) Number of Forestal Management Entities by Size of Owned Forest Areas ................... 480
(2) Owned Forest Areas by Size of Owned Forest Areas ....................................................... 482
(3) Number of Forestal Management Entities by Type of Organization ........................... 484
(4) Status of Owned Forest .................................................................................................... 486
(5) Number of Forestal Management Entities Contracted, Forestry Works Projects and Areas Under Contract................. 488

3 Forest Land Area, Grazing Land and Forest Resources

(1) Total Land Area and Forest Area and Grazing Land ........................................ 490
(2) Forest Area and Grazing Land by Type of Ownership
   a Forest Land Area and Grazing Land ..................................................... 491
   b Forest Land Area ........................................................................... 492
   c Grazing Land other than Forest Land (Natural Grassland) ....................... 494
(3) Area of Protection Forest ........................................................................ 496
(4) Forest Resources ...................................................................................... 498
(5) Number of Municipal Bodies by Forest Land Area and Grazing Land .......... 499
(6) Number of Municipal Bodies by Ratio of Forest ......................................... 500

4 Area of Artificial Afforestation ................................................................. 502

5 Forestry Products

(1) Production of Logs.................................................................................. 504
(2) Demand and Supply of Logs ................................................................... 506
(3) Production of Special Forestry Products .................................................. 508

6 Forestry Households Management ............................................................ 510

7 Forest Road

(1) Status of Forest Road (Available for Automobile) ...................................... 511
(2) Newly Construction of Forest Road (Available for Automobile) ................ 511

XII Fishery

Explanation .................................................................................................... 512

1 Structure of Fishery Production

(1) Marine Fishery and Aquaculture
   a Number of Fishery Management Entities
      (a) Number of Fishery Management Entities by Type of Management Organization .......................... 515
      (b) Number of Fishery Management Entities by Class ...................................................... 516
      (c) Number of Fishery Management Entities by Fishery Type ...................................... 522
      (d) Total Number of Fishery Management Entities by Shipping Destination .................. 524
      (e) Number of Fishery Management Entities by Fish/Marine Harvest Sales Value ............ 525
   b Individual Management Entities
      (a) Number of Fishery Management Entities by Full or Part-Time Work ......................... 527
      (b) Management Entities by Age for Basic Commercial Fishers .................................. 528
   c Number of Fishery Household Members (Individual Management Entities) .................. 530
   d Number of Persons Engaged in Fishery
      (a) Number of Persons Engaged in Fishery by Gender and Age Hierarchy ...................... 531
      (b) Number of Persons Engaged in Fishery by Kind of Engagement ............................. 531
(2) Inland Water Fishery and Aquaculture
   a Number of Inland Water Fishery Management Entities ........................................ 532
   b Lake Fishery (Organization Management Entities and Individual Management Entities engaged in work on lakes for more than 30 days per year)
      (a) Number of Management Entities by Class ......................................................... 533
      (b) Number of Management Entities by Type of Management Organization ............... 533
      (c) Number of Lake Fishery Workers by Gender and Age Hierarchy ........................... 533
27

2 Fishery Resource Management, Multiple Functions of Fishery

(1) Number of Fishery Management Organizations
   a Total Number of Organizations by Management 
   b Number of Organizations by Type of Major Fishery under Management

(2) Background Conditions of Marine Fishery
   a Changes in Fishing Ground Environments
   b Revitalization Projects
   c Partnerships with Recreational Fishing Organizations

(3) Background Conditions of Inland Water Fishery
   a Activities for Improving Environments of Fishing Grounds
   b Number of Released Fish by Kind
   c Number of Cooperatives that Conducted Exchange Activities with Cities and Number of Total Participants

(4) Recreational Fishing Catch Volume (2008)

3 Means and Facilities for Fishery Production

(1) Registered Fishing Vessels
   a Number of Fishing Vessels by Tonnage
   b Number of Powered Maritime Fishing Vessels by Type of Engine and by Type of Construction
   c Number of Maritime Fishing Vessels by Type of Fishery

(2) Number of Owned Fishing Vessels

(3) Designated Fishing Ports

4 Fishery and Aquaculture Production

(1) Production and Value by Type of Fishery

(2) Production and Value by Major Fish

(3) Marine Fishery
   a Catches by Sea Regions and by Prefectures
   b Catch Volumes and Values per Sea Region/Prefecture for Major Types of Fish

(4) Marine Aquaculture
   Catch Volumes and Values per Sea Region/Prefecture for Major Types of Fish

(5) Inland Water Fishery and Aquaculture
   a Inland Water Fishery
      (a) Catches
      (b) Catch Volume for Major Fish per River and Lake
      (c) Value by Major Fish
   b Inland Water Aquaculture
      (a) Production by Fish
      (b) Value by Fish

5 Fishery Management

(1) Individual Marine Fishery Enterprises (Per Enterprise, 2014)
a Outline of Fishery Management and Earnings ................................................................. 588
b Income and Expenditure .............................................................................................. 590
(2) Individual Marine Aquaculture Enterprises (Per Enterprise, 2014) ......................... 592
(3) Company Enterprise (Per Enterprise, F.Y. 2014) .................................................... 594
(4) Joint-Operation Enterprises (Per Enterprise, F.Y. 2014) .......................................... 598

XIII Marketing of Agricultural, Forestry and Fishery products

Explanation ......................................................................................................................... 600

1 Quantity of Inspected Domestic Rice, Wheat and Barley
   (1) Quantity of Inspected Rice ..................................................................................... 605
   (2) Volume of Inspected Wheat and Barley ................................................................. 606

2 Marketing Quantity and Price of Vegetables, Fruits and Flowers
   (1) Shipment Quantity by Major Commodities
      a Vegetables ............................................................................................................ 607
      b Fruits ...................................................................................................................... 618
      c Flowers ................................................................................................................. 622
   (3) Redirected Quantity of Vegetables and Fruits (Market Total of Major Cities)
      a Vegetables ............................................................................................................ 628
      b Fruits and Nuts ..................................................................................................... 629
   (4) Wholesale Quantity, Value and Price of Domestic and Imported Vegetables
      (Market Total of Major Cities) .............................................................................. 630
   (5) Price per commodity and relative price of fresh vegetables in parallel sale shops(2014) .............................. 632

3 Marketing Quantity and Prices of Meat, Hen Eggs and Poultry
   (1) Number of Slaughtered Animals and Weight of Dressed Carcass by Prefectures .......... 634
   (2) Number of Animals, Dressed Carcass and Prices Transacted by Meat Wholesale Markets(2014)
      a Central Meat Wholesale Markets ...................................................................... 638
      b Designated Meat Wholesale Markets ................................................................. 640
   (3) Shipment Volumes for Hen Eggs and Poultry ....................................................... 644

4 Marketing Quantity and Prices of Lumber and Sawlogs
   (1) Demand and Supply of Logs by Utilization .......................................................... 646
   (2) Sawlogs
      a Number of Saw Mills (As of Dec. 31) .................................................................. 647
      b Number of Saw Mills and Received Quantity of Logs by Tree Species ................. 648
      c Number of Shipping Saw Mills and Shipment of Lumber Products by Utilization .. 651
   (3) Number of Plywood and Veneer Plants and Production of Plywood
      a Number of Plywood and Veneer Plants ............................................................... 653
      b Received Quantity of Logs to Produce Veneer Sheets .......................................... 653
      c Production of Plywood ......................................................................................... 653
   (4) Number of Wood Chipping Plants and Production by raw material
      a Number of Plants .................................................................................................. 654
      b Production by raw material ................................................................................. 655
   (5) Prices of Lumber
      a Prices of Logs ...................................................................................................... 656
      b Wholesale Prices of Sawlogs .............................................................................. 656
5 Distribution Structure of Lumber (2011)

(1) Received Quantity of Logs by Supplier
   a Domestic Logs ................................................................. 657
   b Imported Logs ............................................................... 658

(2) Shipment by Destination .................................................. 659

6 Facilities Related to Marketing of Fishery Products

(1) Fish Market
   Number of Fish Markets by Area .................................... 660

(2) Cold Storage and Refrigerating Plants ............................. 661

(3) Fishery Processing Plant
   Total Number of Fishery Processing Plants by Type of Processing .................................................. 662

XIV Processed Agricultural and Fishery Products

Explanation ........................................................................... 664

1 Production of Processed Agricultural and Livestock Products
   (1) Accomplishment of Processing of Rice
      a Production of Rice Cereal Flour ................................. 668
      b Production of Rice Processed ...................................... 668
   (2) Accomplishment of Processing of Wheat and Barley
      a Production of Wheat Flour by Use ......................... 669
      b Production of Wheat and Barley, Polished .............. 669
   (3) Production of Crude Tea ............................................. 670
   (4) Production of Vegetable Oils and Fats .......................... 671
   (5) Production of Edible Fats ........................................... 671
   (6) Production of Major Seasonings .................................. 671
   (7) Production of Sugar and Starch ................................. 672
   (8) Shipment Value of Confectionery ............................... 672
   (9) Shipment Value of Beverages .................................... 672
   (10) Shipment of Alcoholic Beverages .............................. 673
   (11) Production of Milk Products ..................................... 673
   (12) Production of Processed Meat Products ..................... 674

2 Production of Processed Fishery Products .............................. 674

   [Reference] Production of Canned Foods and Bottled Foods 678

XV Income of Agriculture, Forestry and Fisheries

Explanation ........................................................................... 679

1 National Income
   (1) National Income at Factor Cost by Economic Activity (At Factor Cost) (At Current Prices) ........ 681
   (2) Distribution of National Income .................................. 681

2 Economic Accounts for Agriculture and Food Related Industries
   (1) Gross Domestic Product on Agriculture and Food Related Industries ........................................ 682
   (2) Accounts of Agriculture
      Agricultural Production ................................................. 683

3 Total Agricultural Output and Agricultural Income Produced
   (1) Total Agricultural Output and Agricultural Income Produced (National Level Estimate) .......... 684
   (2) Agricultural Output and Agricultural Income Produced by Prefecture
Forestry Income Produced
(1) Total Forestry Output and Forestry Income Produced by Prefecture (2013) ........................................... 688
(2) Total Forestry Output and Forestry Income Produced by Prefecture (2014) ........................................... 689

XVI Mutual Relief and Insurance for Agriculture, Forestry and Fisheries

Explanation ................................................................................................................................. 690

1 Mutual Relief of Agriculture
(1) Mutual Relief of Agricultural Crops
a) Paddy Field Rice .................................................................................................................. 692
b) Upland Rice ......................................................................................................................... 694
c) Wheat and Barley ................................................................................................................. 695
(2) Mutual Relief of Field Crops .............................................................................................. 697
(3) Mutual Relief of Fruits and Fruit Trees
a) Mutual Relief of Fruit-Crop................................................................................................. 698
b) Mutual Relief of Fruit-Tree .................................................................................................. 698
(4) Mutual Relief of Horticulture Facilities .......................................................................... 700
(5) Mutual Relief of Livestock
a) Total .................................................................................................................................... 701
b) Dairy Cattle etc. .................................................................................................................... 702
c) Beef Cattle etc. .................................................................................................................... 704

2 National Forest Insurance .................................................................................................... 706

3 Fishing Vessels Insurance
(1) Contracts (Ordinary Property Insurance) (F. Y. 2013) ...................................................... 710
(2) Contracts (Ordinary Property Insurance) (F. Y. 2014) ...................................................... 712
(3) Payments (Ordinary Property + Maturity) (F. Y. 2013) .................................................... 714
(4) Payments (Ordinary Property + Maturity) (F. Y. 2014) .................................................... 716

4 Mutual Relief of Fisheries ..................................................................................................... 718

5 Members of Farmers’ Pension (As of Fiscal Year End) .......................................................... 720

XVII Finance for Agriculture, Forestry and Fisheries

Explanation ................................................................................................................................. 721

1 National Revenue and Expenditures ...................................................................................... 723

2 General Accounts
(1) Expenditures of General Accounts under the Ministry of Agriculture,
Forestry and Fisheries (by Bureau) ...................................................................................... 724
(2) Public Works Expenditure Relating to Agriculture, Forestry and Fisheries ......................... 726

3 Special Accounts
Estimated Revenue and Expenditures accounts under the Ministry of Agriculture,
Forestry and Fisheries .......................................................................................................... 727

4 Local Government Finance .................................................................................................. 728

5 Principal Accounts of The Norinchukin Bank .................................................................. 730

6 Principal Accounts of The Credit Federations of Agricultural Cooperatives ................. 730

7 Principal Accounts of The Agricultural Cooperatives ......................................................... 730

8 Approval on Loan by Agriculture, Forestry, Fisheries and Food Business Unit,
Japan Finance Corporation ................................................................................................... 732
Cooperatives and Associations of Agriculture, Forestry and Fisheries

Explanation .................................................................................................................. 735

1 Agricultural Cooperatives
   (1) Unit Cooperative ................................................................................................. 736
   (2) Federations ........................................................................................................... 738

2 Forestry Cooperatives ............................................................................................... 740

3 Fishery Cooperatives ................................................................................................. 742

4 Female Participation Status in Agricultural Commissions, Agricultural Cooperatives,
   and Fishery Cooperatives ....................................................................................... 744

Restoration/reconstruction from the Great East Japan Earthquake

1 The Status of Damage and the Resumption of Agricultural Management Entities
   in the Three Prefectures Affected by the Great East Japan Earthquake (As of Feb.1, 2014)
   (1) Damage Status of Agricultural and Fishery Management Entities ................................. 746
   (2) Status of Resumption of Damage (including by the Tsunami) AFFECTED AGRICULTURAL MANAGEMENT ENTITIES ................................. 746

2 The Trend for the Fisheries of the Three Prefectures Significantly Affected by the Great East Japan Earthquake
   (1) Resumption Status of Fisheries Management Entities ..................................................... 747
   (2) Number of Fisheries Management Entities and Persons Engaged in Fisheries Operated and Managed by Fisheries Cooperatives, etc. ......................................................... 747
   (3) Trend for Fisheries in Iwate Prefecture
       a Survey Results of the Census of Fisheries ................................................................ 748
       b Catch Volumes and Values of Marine Fishery ............................................................ 748
   (4) Trend for Fisheries in Miyagi Prefecture
       a Survey Results of the Census of Fisheries ................................................................ 749
       b Catch Volumes and Values of Marine Fishery ............................................................ 749
   (5) Trend for Fisheries in Fukushima Prefecture
       a Survey Results of the Census of Fisheries ................................................................ 750
       b Catch Volumes and Values of Marine Fishery ............................................................ 750

3 Managing Situation of Agricultural and Fishery Management Entities in the Areas Devastated
   by the Tsunami from the Great East Japan Earthquake
   (1) Standard of Agricultural Product Sales Revenue and of Agricultural Income as setting 100
       for the Agriculture (Before the Earthquake, 2010)
       a Standard agricultural income of management entities whose sales revenue until 2013 did
          not reach the standard before the earthquake .......................................................... 751
       b (Reference) Standard agricultural income of management entities including those whose sales revenue
          until 2013 exceeded the standard before the earthquake ........................................ 751
   (2) Standard of aquatic product sales revenue and of fishery income as setting 100
       for the fisheries (before the earthquake, 2010)
       a Standard fishery income of management entities whose sales revenue until 2013 did
          not reach the standard before the earthquake .......................................................... 751
       b (Reference) Standard fishery income of management entities including those whose sales revenue
          until 2013 exceeded the standard before the earthquake ........................................ 751

4 Prospects of Possible Area for Re-start Agricultural Management Per Year
   for the Tsunami-devastated Agricultural Community ................................................. 752
Appendix

1 Chronological Statistics ........................................................................................................... 754
2 Import System of Agricultural, Forestry and Fishery Products in Japan
   (1) Abolition of Import Quota System of Agricultural, Forestry and Fishery Products in Japan
       (Items Based on the CCCN four digit) .............. 758
   (2) Import Quota Items Concerning Agricultural and Fishery Products in Japan ...................... 760
3 Customs Tariff Rate of Major Imported Agricultural, Forestry and Fishery Products ................. 761
4 Main Statistics of Selected Countries ......................................................................................... 762
5 Farm Products Production of Selected Countries (2013)
   (1) Harvested Area ................................................................................................................. 766
   (2) Production ....................................................................................................................... 766
6 Conversion Table
   (1) Measuring Units of Metric System .................................................................................... 768
   (2) Conversion Table of Measuring Units ............................................................................... 769
   (3) Weight Conversion Tables of Foreign Agricultural Products Capacity ......................... 770
   (4) Foreign Exchange Rates .................................................................................................. 770
7 Address of Regional Agricultural Administration Office, etc. ............................................. 771
8 Organization of the Ministry of Agriculture, Forestry and Fisheries (As of July 1, 2016) ......... 774
9 Organization of Regional Agricultural, Administration Offices (As of July 1, 2016) ............... 778
10 Organization of Hokkaido District Agriculture Offices (As of July 1, 2016) ....................... 780
11 List of Major Publications by Ministry of Agriculture, Forestry and Fisheries .................... 782

Index (Japanese) ......................................................................................................................... 788
