ENJOY JAPANESE MEAT

Delicious meat nurtured by the country that cares about quality.
Please enjoy the excellent taste from Japan.

Japan has developed its unique food culture surrounded by abundant nature reflected in four distinctive seasons. In this country, plenty of delicate and palatable foods are available. One example is the variety of stock farm products, produced by producers who exercise ingenuity and effort day by day, to meet the severe requirements of Japanese food culture making the best use of the flavors and characteristics possessed by raw ingredients. Exquisite meats with delicious taste of beef, pork

or poultry, in pursuant of beautiful appearance like marbled beef are distinctive factors in meats produced in Japan that demand strict attention to quality. The various meats produced in Japan doesn't only satisfy the visual effect and taste of the Japanese people whose judgment is described as the harshest in the world, but these meats are also efficiently produced under stringent safety standards and first-class quality control. Please enjoy the pleasure of these flavors yourself.
