

Instructions on reserving a dog or cat's export inspection

Animal quarantine service introduces a complete reservation system for export inspections so that anybody who takes their pets abroad can have the inspection as he/she planned.

If you come without a reservation, obviously one with a reservation is prioritized. We would ask you to make a reservation in another date or wait until all the reserved inspections are finished. Please note that there is a possibility that you may not be in time for your flight departure.

How to reserve

To make a reservation, please send an e-mail to Animal Quarantine Service where you wish to have your dog or cat's inspection, with acceptable dates and hours.

We will check the availability and reply to you about your reservation date and time.

To have the export inspection, also an application form needs to be submitted. Please find more details in our website:

When making a reservation, and at the time of export inspection, please note below.

- **We recommend you have the export inspection by the day before your departure.**

If we cannot confirm necessary documents at the time of export inspection, you need to reacquire them and may not be in time for your flight departure.

- **Please arrive at our office well ahead of time to make it for your appointment.**

If you come late for your reservation time, we would ask you to make a reservation in another date or wait until all the reserved inspections are finished.
