

Domestic Animal Infectious Diseases

Type of infectious diseases	Species of domestic animals
1. Rinderpest	Cattle, sheep, goat, pig, water buffalo, deer, wild boar
2. Contagious bovine pleuropneumonia	Cattle, water buffalo, deer
3. Foot-and-mouth disease	Cattle, sheep, goat, pig, water buffalo, deer, wild boar
4. Infectious encephalitis	Cattle, horse, sheep, goat, pig, water buffalo, deer, wild boar
5. Rabies	Cattle, horse, sheep, goat, pig, water buffalo, deer, wild boar
6. Vesicular stomatitis	Cattle, horse, pig, water buffalo, deer, wild boar
7. Rift Valley fever	Cattle, sheep, goat, water buffalo, Deer
8. Lumpy skin disease	Cattle, water buffalo
9. Anthrax	Cattle, horse, sheep, goat, pig, water buffalo, deer, wild boar
10. Haemorrhagic septicaemia	Cattle, sheep, goat, pig, water buffalo, deer, wild boar
11. Brucellosis	Cattle, sheep, goat, pig, water buffalo, deer, wild boar
12. Tuberculosis	Cattle, goat, water buffalo, deer
13. Johne's disease	Cattle, sheep, goat, water buffalo, deer
14. Piroplasmosis (limited to that caused by pathogens prescribed by Ordinance of the Ministry of Agriculture, Forestry and Fisheries; the same shall apply hereinafter)	Cattle, horse, water buffalo, deer
15. Anaplasmosis (limited to that caused by pathogens prescribed by Ordinance of the Ministry of Agriculture, Forestry and Fisheries; the same shall apply hereinafter)	Cattle, water buffalo, deer
16. Transmissible spongiform encephalopathy	Cattle, sheep, goat, water buffalo, deer
17. Glanders	Horse
18. Equine infectious anaemia	Horse
19. African horse sickness	Horse

20. Ovine rinderpest (Peste des petits ruminants)	Sheep, goat ,deer
21. Classical swine fever	Pig, wild boar
22. African swine fever	Pig, wild boar
23. Swine vesicular disease	Pig, wild boar
24. Fowl cholera	Chicken, duck, quail, turkey
25. Highly pathogenic avian influenza	Chicken, duck, quail, pheasant, emu, ostrich, guinea fowl, turkey
26. Low pathogenic avian influenza	Chicken, duck, quail, pheasant, emu, ostrich, guinea fowl, turkey
27. Newcastle disease (limited to that designated as highly pathogenic by Ordinance of the Ministry of Agriculture, Forestry and Fisheries; the same shall apply hereinafter) * ₁)	Chicken, duck, quail, turkey
28. Avian salmonellosis (limited to that caused by pathogens prescribed by Ordinance of the Ministry of Agriculture, Forestry and Fisheries; the same shall apply hereinafter) * ₂)	Chicken, duck, quail, turkey
29. Foul brood	Honey bee

*₁)

the criteria for virulence stipulated in the Ministerial Ordinance are same as those in the Chapter 10. 4. of the OIE Terrestrial Animal Health Code

*₂)

the causative agents prescribed by Ministerial Ordinance are Salmonella Gallinarum and Salmonella Pullorum

Notifiable Infectious Diseases

Type of infectious diseases	Species of domestic animals
1. Bluetongue	Cattle, water buffalo, deer, sheep, goat
2. Akabane disease	Cattle, water buffalo, sheep, goat
3. Malignant catarrhal fever	Cattle, water buffalo, deer, sheep
4. Chuzan disease	Cattle, water buffalo, goat
5. Bovine viral diarrhea / mucosal disease	Cattle, water buffalo
6. Infectious bovine rhinotracheitis	Cattle, water buffalo
7. Bovine leukosis	Cattle, water buffalo
8. Aino virus infection	Cattle, water buffalo
9. Ibaraki disease	Cattle, water buffalo
10. Bovine papular stomatitis	Cattle, water buffalo
11. Bovine ephemeral fever	Cattle, water buffalo
12. Melioidosis	Cattle, water buffalo, deer, horse, sheep, goat, pig, wild boar
13. Tetanus	Cattle, water buffalo, deer, horse
14. Blackleg	Cattle, water buffalo, deer, sheep, goat, pig, wild boar
15. Leptospirosis (caused by only <i>Leptospira pomona</i> , <i>Leptospira canicola</i> , <i>Leptospira icterohaemorrhagiae</i> , <i>Leptospira grippotyphosa</i> , <i>Leptospira hardjo</i> , <i>Leptospira autumnalis</i> and <i>Leptospira australis</i>)	Cattle, water buffalo, deer, pig, wild boar, dog
16. Salmonellosis (caused by only <i>Salmonella dublin</i> , <i>Salmonella enteritidis</i> , <i>Salmonella typhimurium</i> and <i>Salmonella choleraesuis</i>)	Cattle, water buffalo, deer, pig, wild boar, chicken, duck, quail turkey
17. Bovine campylobacteriosis	Cattle, water buffalo
18. Trypanosomiasis	Cattle, water buffalo, horse
19. Trichomoniasis	Cattle, water buffalo
20. Neosporosis	Cattle, water buffalo
21. Cattle grub	Cattle, water buffalo
22. Nipah virus infection	Horse, pig, wild boar
23. Equine influenza	Horse

24. Equine viral arteritis	Horse
25. Equine rhinopneumonitis	Horse
26. Equine morbilli virus pneumonia	Horse
27. Horse pox	Horse
28. Tularemia	Horse, sheep, pig, wild boar, rabbit
29. Contagious equine metritis	Horse
30. Equine paratyphoid	Horse
31. Epizootic lymphangitis	Horse
32. Contagious ecthyma	Deer, sheep, goat
33. Nairobi sheep disease	Sheep, goat
34. Sheep pox	Sheep
35. Maedi visna	Sheep
36. Contagious agalactia	Sheep, goat
37. Enzootic abortion of ewes	Sheep
38. Toxoplasmosis	Sheep, goat, pig, wild boar
39. Mange	Sheep
40. Goat pox	Goat
41. Caprine arthritis / encephalomyelitis	Goat
42. Contagious caprine pleural pneumonia	Goat
43. Aujeszky's disease	Pig, wild boar
44. Transmissible gastroenteritis	Pig, wild boar
45. Swine enteroviral encephalomyelitis	Pig, wild boar
46. Porcine reproductive / respiratory syndrome	Pig, wild boar
47. Swine vesicular exanthema	Pig, wild boar
48. Porcine epidemic diarrhea	Pig, wild boar
49. Atrophic rhinitis	Pig, wild boar
50. Swine erysipelas	Pig, wild boar
51. Swine dysentery	Pig, wild boar
52. Avian influenza* ₃	Chicken, duck, quail, turkey
53. Low pathogenic Newcastle disease* ₄)	Chicken, duck, quail, turkey

54. Avian pox	Chicken, quail
55. Marek's disease	Chicken, quail
56. Infectious bronchitis	Chicken
57. Infectious laryngotracheitis	Chicken
58. Infectious bursal disease	Chicken
59. Avian leucosis	Chicken
60. Avian tuberculosis	Chicken, duck, quail, turkey
61. Avian Mycoplasmosis	Chicken, turkey
62. Leucocytozoonosis	Chicken
63. Duck hepatitis	Duck
64. Duck viral enteritis	Duck
65. Rabbit hemorrhagic disease	Rabbit
66. Myxomatosis	Rabbit
67. Varroosis	Honey bee
68. Chalkbrood	Honey bee
69. Acariosis	Honey bee
70. Nosemmosis	Honey bee

*₃₎

any avian influenza except highly pathogenic avian influenza and low pathogenicity avian influenza

*₄₎

any Newcastle disease except Newcastle disease designated as a Domestic Animal Infectious Diseases
