

## II Agriculture and Forestry Management Entities

### Explanation

Statistics on agriculture and forestry management entities, etc., community-based farm cooperatives and fatal accidents in agricultural work are recorded in this part.

Brief explanations for respective statistics are as follows:

#### 1 Agriculture and Forestry Management Entities, etc.

"Census of Agriculture and Forestry" and "Survey on Movement of Agricultural Structure" by the Statistics Department of MAFF are recorded.

"Census of Agriculture and Forestry" covering all agricultural holdings, had been conducted every five years since 1950 in order to depict the Japanese agricultural structure. Since 2005, it has been conducted as the "Survey on Management Entities of Agriculture and Forestry," which focuses on individual agricultural and forestry production activities (agriculture and forestry management).

"Survey on Movement of Agricultural Structure" is conducted to clarify the actual and the transitional situation in agricultural structure during the years when "Census of Agriculture and Forestry" is not conducted.

Please note that the data of "Census of Agriculture and Forestry," which is a complete survey, and those of "Survey on Movement of Agricultural Structure," which is a sampling survey. Therefore, they are not necessarily linked to each other.

#### (1) Agriculture and Forestry Management Entities

It means those who produce agriculture or forestry products, or those who are engaged in agriculture or forestry operations under consignment agreements with the land area and number of livestock for their production and operations are applicable to one of the following regulations.

- a. Agriculture with the size of 30 ares and over of cultivated land under management
- b. Agriculture with the size over the standards defined as the attached list with regard to planted areas or growing areas of agricultural products, feeding numbers or shipping numbers of livestock, or other businesses
- c. Forestry with the size of 3 hectares and over of forest area where the owner can grow or cut trees (excluding acquisition for the sole purpose of deforesting standing trees and bamboos). Hereafter those forestry would be called as "owned forest land."
- d. Agricultural operating under a consignment agreement
- e. Business for commissioned silviculture or logs production, or business for logs production by purchasing standing trees.

(Attached list)

Planted area for outdoor grown vegetables	15 ares
