

I Food Supply and Demand

Explanation

Statistics on food supply and demand, food consumption, affrinnovation, trends of food industry and marketing costs, etc. and Japan trade of agricultural, forestry and fishery products are recorded in this part.

Brief explanations for respective statistics are as follows:

1 Food Supply and Demand

(1) Food Balance Sheet

"Food Balance Sheet" by the Food Security Office, Policy Planning Division, Minister's Secretariat of MAFF is recorded.

It is based on the manual for producing the food balance sheet prepared by FAO (Food and Agriculture Organization of the United Nations), and it is produced for grasp the trend in the supply and demand of food, the level and composition of caloric value and changes in the structure of food consumption, etc.

(2) Supply and Demand of Government-Owned Rice, Wheat and Barley

The data from the Crop Production Bureau of MAFF is recorded.

(3) Production, Sales, Stock, etc. of Rice per Agricultural Management Entity

"Survey on Rice Stock, etc. of Producers" by the Statistics Department of MAFF is recorded.

This is conducted to grasp the actual situation of rice stock of producers, production, sales, etc.

The survey design has been changed from 2022 such as sharing the sample with "Statistical Survey on Farm Management Statistics by Farming Type" as management entities to be surveyed in order to conduct the survey efficiently and maintain the quality of data. Therefore, please take note when comparing 2022 to before the year.

2 Food Consumption

(1) National Nutrition

"The National Health and Nutrition Survey in Japan" by MHLW is recorded.

This is conducted to clarify the physical conditions, intake of nutrition, etc. and lifestyle of Japanese.

(2) Prices of Food

a. Consumer Price Index

"Consumer Price Index" by MIC is recorded.

This index has been produced by MIC for the purpose of measuring changes of various goods and services purchased by households all over Japan, thereby analyzing the movement of prices in time series.

b. Retail Price

"Retail Price Survey" by MIC is recorded.

This is conducted to grasp the charges and rents of commodities and services which constitute items essential to consumers' daily life.

(3) Expenditure for Food per Household

"Family Income and Expenditure Survey" by MIC is recorded.

This is conducted to grasp the actual situation of income and expenditure households.

(4) Transition of Imputed Value of Foods and Beverages Expenses by Section from Final Consumption

Expenditure (Includes the flow of food and beverage costs).

"2015 Input-Output Tables for Agriculture, Forestry and Fisheries, and Related Industries" by the Statistics Department of MAFF is recorded.

This data is based on the input-output table, which MIC and other 10 Ministries and Agencies have prepared and published almost every five years to contribute to understanding, analysis and forecasting of economic activities, MAFF performed section unification mainly on agriculture, forestry and fisheries, related industries originally and gathered it.

3 AFFrinnovation

"AFFrinnovation" is identical to "Collaboration of Primary, Secondary, and Tertiary Industry" in previous Statistical Yearbook.

"Comprehensive Survey on AFFrinnovation" by the Statistics Department of MAFF is recorded.

This is conducted to clarify the situation improving the income of farmer and fishery operator and creating the employment through grasping about their effort towards increasing their income under operating the related businesses agricultural or fishery production.

AFFrinnovation means an effort to promote comprehensively and integrally with "agriculture, forestry and fisheries" as Primary industry, "manufacturing businesses" as Secondary one and "retailing" as Tertiary one which is conducted by proactively agriculture, forestry or fishery operator or their organized organization in collaboration with others as their necessary, and to create new added-value through the effective use of resources in rural area.

4 Trends of Food Industry and Marketing Costs, etc.

(1) Structure of Food Industry

a. Eating and Drinking Services

"Economic Census for Business Activity" both by MIC and by METI is recorded.

This is conducted to clarify the economic structures consisting of activities of establishments and enterprises in all industries on a national and regional level.
