

Diseases and Aquatic animals subject to import quarantine in Japan
(On and after June 9, 2026)

	Diseases	Aquatic animals
Diseases of Fish (9)	Viral haemorrhagic septicaemia (excluding Genotype IVa) : VHS	Salmonidae
	Infection with salmonid alphavirus	Salmonidae
	Epizootic haematopoietic necrosis: EHN	Salmonidae
	Piscirickettsiosis	Salmonidae
	Enteric redmouth disease	Salmonidae, <i>Cyprinus carpio</i> , species of genus <i>Carassius</i> , <i>Hypophthalmichthys (Aristichthys) nobilis</i> , <i>Hypophthalmichthys molitrix</i> , <i>Oreochromis niloticus</i>
	Whirling disease	Salmonidae
	Spring viraemia of carp: SVC	<i>Cyprinus carpio</i> , species of genus <i>Carassius</i> , <i>Hypophthalmichthys(Aristichthys) nobilis</i> , <i>Hypophthalmichthys molitrix</i> , <i>Mylopharyngodon piceus</i> , <i>Ctenopharyngodon idella</i>
	Koi herpesvirus disease: KHVD	<i>Cyprinus carpio</i>
	Glugeosis of red sea bream	<i>Pagrus major</i>
Diseases of Crustaceans (11)	Yellow head disease: YHD	Penaeidae, species of genus <i>Acetes</i> , Palaemonidae
	Necrotising hepatopancreatitis: NHP	Penaeidae
	Taura syndrome	Penaeidae
	Infectious hypodermal and haematopoietic necrosis: IHNN	Penaeidae
	Acute hepatopancreatic necrosis disease: AHPND	<i>Penaeus japonicus</i> , <i>Penaeus vannamei</i> , <i>Penaeus monodon</i> , <i>Penaeus chinensis</i>
	Infectious myonecrosis: IMN	species of genus <i>Penaeus</i> (excluding <i>Penaeus japonicus</i> , <i>Penaeus chinensis</i>)
	Tetrahedral baculovirus	Penaeidae
	Covert mortality disease of shrimp: CMD	<i>Penaeus japonicus</i> , <i>Penaeus vannamei</i> , <i>Penaeus monodon</i> , <i>Penaeus chinensis</i> , <i>Macrobrachium rosenbergii</i>
	Gill-associated virus disease	species of genus <i>Penaeus</i> (excluding <i>Penaeus vannamei</i>)
	Spherical baculovirus	species of genus <i>Penaeus</i> (excluding <i>Penaeus japonicus</i> , <i>Penaeus vannamei</i>) , species of genus <i>Metapenaeus</i>
Infection with Decapod iridescent virus 1: DIV1	Penaeidae , Palaemonidae	
Diseases of Molluscs(3)	Infection with abalone herpesvirus	<i>Haliotis rubra</i> , <i>Haliotis laevigata</i> , <i>Haliotis diversicolor aquatillis</i> , <i>Haliotis diversicolor supertexta</i> , <i>Haliotis diversicolor diversicolor</i>
	Infection with ostreid herpesvirus 1microvariant (limited to OsHV-1 μ var)	species of genus <i>Crassostrea</i>
	Infection with <i>Perkinsus qugwadi</i>	<i>Mizuhopecten yessoensis</i>
Other	Soft tunic syndrome	<i>Halocynthia roretzi</i>
