

FISHERY COOPERATIVE INYA

- INYA founded in 1999 and is currently one of the largest fishing enterprises in Khabarovsk Territory.
- Annually INYA catches and processes more than 8 000 tons of fish and seafood products.
- INYA's production facilities are equipped with modern technological equipment of large capacities. From 2008 to 2018, the company has completely modernized its production line by installing the equipment of Japan, Canada, and South Korea.
- Enterprise goods are subject to strict quality control at all stages of production. Monitoring begins with the catch of raw fish, its quick processing, transportation and ends with verification of finished products of full processing.
- INYA is certified to international HACCP standards as well as has licenses for transport activities, a registered trademark and an approval number for manufactured products. It also has a factory label that allows to deliver products to China, Japan and South Korea.
