

Project to Support the Activities of Private Sectors for the Development of Sustainable Agri-Food Systems in Collaboration with IFAD

Objectives

Supporting private sectors' efforts to develop a sustainable supply chain and improve the quality and productivity of products.

Description

Through the "Enhanced Linkages between Private sector and Small-scale producers (ELPS)" with International Fund for Agricultural Development (IFAD), supporting the introduction of advanced agricultural technologies and innovations as well as the creation of sustainable business models by connecting private companies with small-scale producers.

In Tanzania

Improve productivity, quality and traceability of coffee by sustainable production methods.

Photo: UCC Japan Co., Ltd.

In Rwanda

Obtain organic certification of macadamia nuts to increase added value and local farmers' income.

Expected outcome by this project

Improve Quality, Productivity & Income

Producers in Developing Countries

- Demand for sustainable production.
- Limited access to global market and advanced agricultural technologies.

Develop Sustainable Supply Chains

IFAD

Bridging the Gap

Support sustainable agricultural production methods and the establishment of partnerships.

Stable Supply of Agri-Food Products

Private Companies in Developed Countries

- Demand for sustainable food supply.
- Limited network with producers in developing countries.
