Subject: The Renewal of the Recognition of Japan's Food Safety Control System

Dear Sir/Madam,

Indonesian Quarantine Authority (IQA) has the honor to inform the Embassy of Japan that the Head of IQA has stipulated Decree Number 304 of 2024 concerning the Recognition of Food Safety Control System on Japan's Fresh Food of Plant Origin (FFPO) (See Attachment) on 7 May 2024. We highly appreciate Japan's commitment and continuous effort to ensure the safety of FFPOs exported to Indonesia.

The Decree is valid for three years since **7 May 2024**. The list of recognized FFPOs (the scope of recognition) is attached and can be found in the Annex of the decree (*LAMPIRAN*).

The food safety requirements for the exportation of those FFPOs to Indonesia are as follows:

1. Every consignment must be accompanied by a Prior Notice issued by the exporters (or its representative) in Japan.
2. Prior Notice must be issued before the FFPO arrives in Indonesia.

The National Food Safety Competent Authority (NFSCA) of Japan must annually report the complete result of national food safety monitoring to the IQA. In addition, any changes in Japan's food safety regulations or any relevant food safety outbreaks should be informed to IQA. If there is any notification of non-compliance from the IQA, the NFSCA of Japan must conduct a follow-up action and report the result (including the corrective action, if any).

Thank you for your kind attention and looking forward to continuing our valuable cooperation.

Sincerely yours,

Insan Nugroho

Acting Director for Plant Quarantine Risk Management
The Indonesian Quarantine Authority (IQA)

Cc.:

1. H.E. Ambasssador, Embassy of Japan in Indonesia.
2. H.E. Deputy of Plant Quarantine.
