Overview of Export Production Areas

- In cooperation with JA Nagano, JA Green Nagano, JA Nakano city, JA Minami Shinshu, JA Matsumoto Highland, and JA Shinshu Ueda, we are working on exports in accordance with plant quarantine and related regulations.

Actions for Compliance with Export Regulations

- In collaboration with prefectural administrations and related institutions, we are examining grape size, cluster formation, and ripeness on a regional scale.
- A framework is also in place to provide cultivation guidance that takes into
- account the needs of export destination countries.
- For exports to Thailand, we will assist each JA in the registration of orchards and facilities related to plant quarantine, the acquisition of health certificates for fruit selection packaging facilities, and the implementation of pesticide

Promotional Points

- By adjusting and storing the produce in high-performance refrigerated storage facilities within Nagano Prefecture, we are working to establish an export system that enables it to produce large lots and prevents deterioration in quality by establishing a cold chain, thereby reducing loss rates.
