Overview of Export Production Areas

- Cooperating with 32 agricultural cooperatives, the whole province carries out joint calculation and is working to export mainly to Taiwan.

Actions for Compliance with Export Regulations

- We ship lots grown with agricultural chemicals banned in the export countries.
- We carry out transportation tests using cardboard pallets and plastic pallets to reduce unloading labor in the destination country.

Promotional Points

- In addition to existing exporters, the company conducts market research and tests on pesticide residues in the EU, where export conditions are strict, and tests on shipments to Malaysia, where demand for small size is believed to be high.
