Overview of Export Production Areas

- Kagoshima Suisan Co., Ltd., owns a management company for 200 aquaculture tanks and 2 processing companies (Global Ocean Works Co., Ltd., Aqua Blue Co., Ltd.). In addition to yellowtail, which is farmed by the group, the company also cooperates with 5 aquaculture companies in the prefecture as a regional processing base.

Actions for Compliance with Export Regulations

- Acquired HACCP, BRC, SQF, and other certifications within the Group.
- In the U.S. market, there is a strong demand to produce more than 2 kg of yellowtail fillet, and we are working to secure suitable raw material.

Promotional Points

- The Group has a complete value chain, from aquaculture to distribution and sales, and has a subsidiary in the United States, which is our main export market. The Group's strength is that it can directly take in market feedback and reflect market-in ideas in product development.
