

Main Export Countries	Singapore, Malaysia, etc.	Export Value	190 million JPY
Sourcing Region	Himeji City,Tatsuno City Hyogo Prefecture		

Overview of Export Production Areas

- Cooperating with 15 producers who can supply high-quality oysters, the company is working to export frozen shelled oysters for raw consumption mainly in Southeast Asian countries.

Actions for Compliance with Export Regulations

- Acquired ISO22000 certification and facility certification for each country.
- To meet the demand for raw consumption, we manufacture raw materials only for raw consumption in oversea markets.
- The company has established and is operating an inspection system that meets standards for raw consumption.

Promotional Points

- Currently, the company is building a system to ship to the EU, and aims to expand sales channels from Southeast Asia to the Middle East and from the Middle East to EU countries.
