

# Tarumizu City Fishermen’s Cooperative

item	Seafood (Amberjack)
------	------------------------

Main Export Countries	United States, Canada, etc.	Export Value	140 million JPY
Source Region	Tarumizu City Kagoshima Prefecture		

## Overview of Export Production Areas

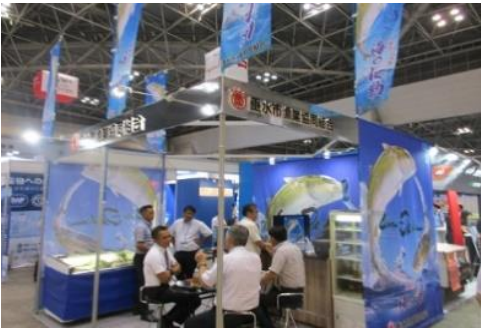

- We farm and process amberjack in Kinko Bay, Kagoshima Prefecture and in 2009 we’ve been certified for HACCP certification
- 19 of 32 Amberjack farmers are selling as cooperative to oversea and production shift is underway from natural seeding to artificial seeding

## Actions for Compliance with Export Regulations

- In June 2022 certified for FSSC 22000 certification
- Obtained certification as a seafood export handling facility from nine countries, including the United States and Taiwan.

## Promotional Points

- Not only promoting the products but when having customers visit the facility, we are motivated to show our farm, processing facility, and having the customer taste the finished products which has led to expand our oversea business.
