Overview of Export Production Areas

- The association is comprised of the Japan Economic Federation of Agriculture Organizations (JA) Kagoshima Prefecture and JA Kagoshima Tea Industry Co., Ltd., and cooperates with 11JA and 246 plants. The association is working to increase purchasing quantity and export mainly organic JAS-certified tea and tea produced for export market.

Actions for Compliance with Export Regulations

- Complies with pesticide residue standards for the United States and Taiwan.
- Exports a wide range of products from high quality to low quality to meet the demand from each country.
- Other than U.S. and Taiwan market we export products from plants that have obtained organic JAS certification.

Promotional Points

- We have partnered with foreign residents in the prefecture who are interested to promote Japanese tea to various countries.
- These efforts are small at present, but we would like to expand such efforts by targeting multiple countries and increasing the number of partners.
