

Main Export Countries	Hong Kong, Singapore, United States (2023)	Export Volume	690t (2023)
Source Region	Ichihara City, Kisarazu City, Sodegaura City, and Sanmu City in Chiba Prefecture		

Overview of Export Production Areas

Began export efforts in 2019, and by 2023, has achieved export results in Hong Kong, the United States (Guam, Hawaii), and Singapore.

Actions for Compliance with Export Regulations

Achieved the first-ever FDA (U.S.) facility registration in Japan, as well as facility registrations for washing and packaging (for Hong Kong) and production farm certifications (for Singapore). Hygienic management is carried out in accordance with the regulations of each country, and efforts to expand the number of facilities that meet these requirements are ongoing. In terms of sales, direct transactions with local retailers are conducted, along with PR activities to raise awareness of dishes using raw eggs.

Promotional Points

Proven track record in adhering to hygiene management and other regulations for import restrictions in various countries. Additionally, stable exports are maintained through the development of private brand products with major local supermarkets, demonstrating the ability to respond flexibly to various needs.
