

## Questions on general information on cloven-hoofed animals; distribution, production and processing (Questionnaire B)

Note) Select relevant questions according to animal species.

### 1 Animal production

a) Statistics on animals and their farms in most recent year

year	Cattle		Pigs		Sheep		Goats		Other cloven-hoofed animals	
	# of farms	# of animals	# of farms	# of animals	# of farms	# of animals	# of farms	# of animals	# of farms	# of animals
Nationwide										
Breakdown by region (e.g. county, state)										

b) Number of backyard farms and animals kept (by animal species)

Note: Elaborate as much as possible. If detail/complete statistics in not available, even rough numbers would be considered.

### 2 Production and distribution of meat and meat products

Note: Questions a) b) c) are applicable to a request on importation of meat and meat products only.

a) Number of animals slaughtered and amount of meat production in most recent year

year	Cattle	Pigs	Sheep	Goats	Other cloven-hoofed animals
Annual number of slaughtered animals					
Annual amount of meat production(kg)					

b) Number of slaughter and meat processing facilities

	Cattle	Pigs	Sheep	Goats	Process two or more species
<b>【Slaughter facilities】</b>					
# of slaughter facilities					
(# of slaughter facilities for export)					
<b>【Meat processing facilities】</b>					
# of meat processing facilities					
(# of meat processing facilities for export)					

c) Outline of slaughter and meat processing facilities;

- i) Description of ante and post mortem inspection, responsible organization/agency and qualification of a person in charge.
  - ii) Description of permission for slaughter and for meat processing facilities for national consumption including authorizing entity (either national or local government) and its criteria and procedures to approve/suspend.
  - iii) Criteria and procedures to approve/suspend permission for slaughter and meat processing facilities for export
  - iv) Responsible person, organization and agency in charge of issuing animal health certificate for exporting meat and meat products. Procedures for issuance.
- d) Farm registration, animal identification and traceability system throughout production chain
- e) General description of animal production manners and management practices according to the production system by animal species (indicate the species).
- f) Description of voluntary programs on animal health and veterinary public health objects organized by a private sector (if any).

**3 Export and import**

- a) Statistics on import

i) Number of imported animals by country of origin in the recent two years

	Cattle		Pigs		Sheep		Goats		Other cloven-hoofed animals	
	year	year	year	year	year	year	year	year	year	year
Country										

ii) Amount of imported fresh meat by country of origin in the recent two years

Note: Figures on other requested commodities (e.g. semen, processed meat) should be added.

Fresh meat

(kg)

	Cattle		Pigs		Sheep		Goats		Other cloven-hoofed animals	
	year	year	year	year	year	year	year	year	year	year
Country										

b) Statistics on export

i) Number of exported animals by country of origin in the recent two years

	Cattle		Pigs		Sheep		Goats		Other cloven-hoofed animals	
	year	year	year	year	year	year	year	year	year	year
Country										

ii) Amount of exported fresh meat by country of destination in the recent two years

Note: Figures on other requested commodities (e.g. semen, processed meat) should be added.

Fresh meat

(kg)

	Cattle		Pigs		Sheep		Goats		Other cloven-hoofed animals	
	year	year	year	year	year	year	year	year	year	year
Country										

c) Concerning import and export quarantine for cloven-hoofed animals and their products ;

i) Agency/organization responsible for import quarantine

ii) Number and location of animal import quarantine facilities (locate on a map along with major ports of entry)

iii) Outline of quarantine and inspection for live animal and animal products

iv) Control measures against smuggling

v) Agencies/organization responsible for issuing export health certificate for live animals, and procedures for issuance

#### 4 Others

a) Control measures on garbage from ship or airline arriving from abroad and the legal basis (if any).

b) Control measures on swill feeding for pigs and the legal basis (if any).

c) (In case of the request for importation of semen or embryo) Information on AI and embryo/ova processing facilities including the process for approval, hygiene measures to introduce animals into the facilities.

## Questions on general information on poultry, poultry production; processing and distribution (Questionnaire B)

### 1 Poultry production

a) Most recent number of poultries and households

year	Layer chicken		Broiler chicken		Breeding chicken	
	# of holdings	# of birds	# of holdings	# of birds	# of holdings	# of birds
Nationwide						
Breakdown by region (e.g. county, state)						

year	Meat-type turkey		Breeding turkey	
	# of holdings	# of birds	# of holdings	# of birds
Nationwide				
Breakdown by region (e.g. county, state)				

Year	Meat-type duck		Breeding duck	
	# of holdings	# of birds	# of holdings	# of birds
Nationwide				
Breakdown by region (e.g. county, state)				

year	Meat-type goose		Breeding goose		Other commercial poultry	
	# of holdings	# of birds	# of holdings	# of birds	# of holdings	# of birds
Nationwide						
Breakdown by region (e.g. county, state)						

b) Number of backyard poultry holders and number of poultry kept.

Note: Elaborate as much as possible. If detail/complete statistics in not available, even rough numbers would be considered.

## 2 Production and distribution of poultry and poultry products

Note: Questions a) b) c) are applicable to a request on importation of poultry products only.

a) Statistics for poultry meat and table egg production in most recent year.

b) Number of poultry meat/table egg processing facilities

	Poultry meat processing facilities	Table egg processing facilities
# of facilities		
(# of facilities for export)		

c) Concerning poultry meat/table egg processing facilities;

i) Description of ante and post mortem inspection, responsible organization/agency and qualification of a person in charge.

ii) Description of permission for slaughter and for meat/egg processing facilities for national consumption including authorizing entity (either national or local government) and its criteria and procedures to approve/suspend.

iii) Criteria and procedures to approve/suspend permission for meat/table egg processing facilities for export

iv) Responsible person, organization and agency in charge of issuing animal health certificate for exporting poultry meat and products. Procedures for issuance.

d) Farm registration, flock identification and traceability system throughout production chain

e) General description of poultry production manners and management practices according to the production system.

f) Description of voluntary programs on animal health and veterinary public health objects organized by a private sector (if any).

g) Number of live bird markets, number of poultry traded, trading system through live bird market, hygiene measures and general control, management and monitoring procedures for the market (if any)

h) The distribution route of backyard flocks fully separated from that of commercial flocks (if any). Existence or no-existence of the poultry

processing facilities which accept backyard flocks separated from those processing commercial flocks.

### 3 Import and export

#### a) Statistics on import

i) Number of hatching eggs and day-old poultry imported by country of origin in the recent two years

	# of hatching eggs(chicken)		# of day-old poultry(chicken)	
	year	year	year	year
Country				

	# of hatching eggs(other than chicken)		# of day-old poultry(other than chicken)	
	year	year	year	year
Country				

ii) Amount of poultry meat and table eggs imported by country of origin in the recent two years

(kg)

	Fresh meat(chicken)		Table eggs(chicken)	
	year	year	year	year
Country				

	Fresh meat(other than chicken)		Table eggs(other than chicken)	
	year	year	year	year
Country				

#### b) Statistics on export

i) Number of hatching eggs and day-old poultry exported by country of

destination in the recent two years

	# of hatching eggs(chicken)		# of day-old poultry(chicken)	
	year	year	year	year
Country				

	# of hatching eggs(other than chicken)		# of day-old poultry(other than chicken)	
	year	year	year	year
Country				

ii) Amount of poultry meat and table eggs exported by country of destination in the recent two years

(kg)

	Fresh meat(chicken)		Table eggs(chicken)	
	year	year	year	year
Country				

	Fresh meat(other than chicken)		Table eggs(other than chicken)	
	year	year	year	year
Country				

c) Concerning import and export quarantine for poultry and poultry products;

i) Agency/organization responsible for import quarantine

ii) Number and location of quarantine facilities for poultry import (locate on a map along with major ports of entry)

iii) Outline of quarantine and inspection for live animal and animal products

iv) Control measures against smuggling

v) Agencies/organizations responsible for issuing animal health certificate for live poultry including hatching eggs and day-old poultry to be exported, and

procedures for issuance

- vi) Control measures on garbage from ship or airplane and their legal basis (if any).

#### **4 Others**

- a) (In case of the request for importation of day-old poultry and hatching eggs)  
Provide following information regarding breeding facilities and hatcheries;
  - i) Description of official disease monitoring program such as salmonella.
  - ii) Registration or approval procedures and the criteria for breeding facilities or hatcheries for export (if any)

for reference only

## Questions on general information on animal production, processing and distribution for horses (Questionnaire B)

### 1 Horse production

Statistics on horses and their holdings in most recent year

	Fattening		Race horse		Breeding horse		Riding horse	
	# of animals	# of holdings	# of animals	# of holdings	# of animals	# of holdings	# of animals	# of holdings
Nationwide								
Breakdown by region (e.g. county, state)								

### 2 Production and distribution of horse meat and horse meat products

Note: Applicable for a request on importation of meat and meat products only. In case that horses are not slaughtered and processed within the country, please describe how they are produced.

a) Number of slaughtered horses and amount of meat production in most recent year

Annual number of slaughtered horses	
Annual amount of meat production(kg)	

b) Number of slaughter and meat processing facilities for horses

<b>【Slaughter facilities】</b>	
# of slaughter facilities	
(# of slaughter facilities for export)	
<b>【Meat processing facilities】</b>	
# of meat processing facilities	
(# of meat processing facilities for export)	

c) Outline of slaughter and meat processing facilities for horses;

i) Description of ante and post mortem inspection, responsible organization/agency and qualification of a person in charge.

- ii) Description of permission for slaughter and for meat processing facilities for national consumption including authorizing entity (either national or local government) and its criteria and procedures to approve/suspend.
- iii) Criteria and procedures to approve/suspend permission for slaughter and meat processing facilities for export
- iv) Responsible person, organization and agency in charge of issuing animal health certificate for exporting horse meat and meat products. Procedures for issuance.

### **3 Import and export**

- a) Statistics on import
  - i) Number of animals imported by country of origin and by purpose (e.g. fattening, race, breeding, riding) in the recent two years
  - ii) Amount of fresh horse meat imported by country of origin in the recent two years
- b) Statistics on export
  - i) Number of animals exported by country of destination and by purpose (e.g. fattening, race, breeding, riding) in the recent two years
  - ii) Amount of fresh horse meat exported by country of destination in the recent two years
- c) Concerning import and export quarantine for horses and their products;
  - i) Agency/organization responsible for import quarantine
  - ii) Number and location of import quarantine facilities for horse (locate on a map along with major ports of entry)
  - iii) Outline of quarantine and inspection for live animal and animal products
  - iv) Outline of the animal health requirements for importation of horses and horse meat products
  - v) Agencies/organizations responsible for issuing animal health certificate for live animals to be exported, procedures for issuance

### **4 Others**

- a) Farm registration, animal identification and traceability system
- b) Regulation regarding movement of horses within the country (if any)
