

2 Survey on Agricultural Entities Other than Farm Households

《Organizational Structure》

(1) Total Number of Entities

Type of Organization	Unit: Entities	
	1995	2000
Total Number of Entities	10 000	10 554
1) Market Entities	6 439	7 542
Incorporated Entities	4 986	5 272
Agricultural cooperative Entities	1 529	1 341
Corporations	3 066	3 446
Stock Companies	951	811
Limited Liability Companies	2 073	2 601
Partnerships	42	34
Coops and Other Orgs.	264	309
Other Incorporated Entities	127	176
National and Regional public Entities	80	80
Un-incorporated Organizations	1 373	2 190
2) Grazing and Hay Field Operators	1 218	1 130
3) Miscellaneous	2 343	1 882

- Notes: 1) Market entities are those organizations which make sale of agricultural products rather than production their purpose. They include those entities whose purpose is to provide products to internally to processing plant operations. In such cases, processing operations are not considered as an agricultural activity.
- 2) Hay field management entities cultivate hay and tend livestock within or farm households co-venture to operate as hay fields and/or use to graze their livestock. Such operation can be maintained by agricultural communities or be agricultural joint ventures.
- 3) "Other entities" are those which are not market-oriented or hay field management entities and includes those entities whose purpose is in experimentation (including corporate farms for testing purposes) service and public health providers, educational units as well as those operating for provision of in-house needs.

(2) Labor Force (Market Entities)

A Management

B Employees
