

The diagram shows a rectangular room with a width of 7.7m and a length of 18m. The room is divided into two main sections by a vertical wall. On the left side, there are six rectangular tables, each labeled $2 \times 2.5\text{m}$, arranged in a single column. On the right side, there are five rectangular tables, each labeled $2 \times 2.5\text{m}$, arranged in a single column. The bottom right corner of the room is occupied by a large, L-shaped gray area, which appears to be a desk or a large table. The room has a black border on the top, bottom, and left sides, and a black wall on the right side. A blue double-headed arrow indicates the 18m length, and a black double-headed arrow indicates the 7.7m width. A small black double-headed arrow at the bottom left indicates a 2m distance.
