Kohichi YONEYAMA** and Kazuhiko TSUKAMOTO
Seibu Sub-Branch Station, Nagoya Plant Protection Station

Abstract: A total of 62 scolytid and 27 platypodid species were found in logs imported from Bismarck Archipelago at Nagoya port in this work. Details of the host records in the present collection are given.

Key words: Scolytidae, Platypodidae, Bismarck, Ecology, Plant quarantine

Introduction

Although the ecology of the scolytid and platypodid beetles of the Malayan peninsula has been studied well, little is known of that of the other Southeast Asian and New Guinea areas.

This report is virtually a list of the beetles belonging to the Scolytidae and Platypodidae collected from tropical logs imported from Bismarck Archipelago to the Nagoya port, based on the results of plant inspection.

More than 19,600 specimens were collected from these Islands including 62 species 15 genera of Scolytidae and 27 species 4 genera of Platypodidae by plant inspectors of Seibu Sub-Branch from April 1982 to March 1988.

In the following list of the collected species, details of the host records in the present collection are given, and also details of locality records of shipment are designated.

Family Scolytidae

1. *Dactylipalpus transversus* CHAPUIS

Pomio, Rabaul, Condor¹⁾, 1 ex., *Terminalia* sp., 1 ex., *Calophyllum* sp., 2 exs., *Pometia pinnata*²⁾

2. *Hylesinus despectus* WALKER

Various shipment localities ; 12♂ 3♀, *Dracontomelon puberulum*, 2♂, *Spondias* sp., 76♂ 21♀, *Canarium* sp., 18♂ 5♀, *Terminalia* sp., 1♂, *Schizomeria* sp., 29♂ 4♀, *Dillenia* sp., 1♂, *Sloanea* sp., 1♂, *Neoschortechinia* sp., 3♂ 2♀, *Pimelodendron* sp., 94♂ 20♀, *Homalium* sp., 44♂ 6♀, *Calophyllum* sp., 1♂ 1♀, *Lauraceae* sp., 5♂ 6♀, *Aglaia* sp., 1♂ 1♀, *Chisocheton* sp., 3♂, *Eucalyptus deglupta*, 12♂ 1♀, *Eugenia* sp., 2♂ 1♀, *Anthocephalus chinensis*, 18♂, *Neonauclea* sp., 94♂ 10♀, *Pometia pinnata*, 4♂ 1♀, *Burckella* sp., 11♂ 3♀, *Palaquium* sp., 3♂, *Planchonella* sp., 6♂ 2♀, *Celtis* sp.

Acknowledgements

We are much indebted to late Mr. F.G. BROWNE (England) for identification of many collected species. We are also grateful to Dr. K. OGATA (Government Forest Experiment

Station), Mr. T. FUJIWARA, Mr. T. MIWA (Meiko Unyu K.K.), Mr. H. ADACHI (Nagoya Port Lumber Scaling Co., Ltd.), for the examination of tree species, and Mr. S. OKADA (Nagoya Port Lumber Warehouse Inc.), Mr. Y. HATANAKA (Chubu Mokuzai Soko Co., Ltd.), Mr. H. ISOGAI (Chubu Shizai K.K.), Mrs. R. ISHIHARA (Tokaichiku Plant Quarantine Association), for their helps in this way.
