

Wood packaging materials must be treated in accordance with ISPM No.15 before exports.

### Treatments in the standard

#### ● Heat Treatment (HT)

Wood packaging materials must be heated to 56 °C (core temperature) for 30 minutes or longer.

#### ● Methyl Bromide fumigation (MB)

Required Methyl Bromide concentration vary in the range of 48-64g/m<sup>3</sup> (under different temperature). Minimum exposure time is 24 hours.

#### ● Dielectric Heating (DH)

Wood packaging materials must be heated to 60 °C for 1 minute or longer.

#### ● Sulphuryl Fluoride fumigation (SF)

Wood packaging materials must be fumigated over 24 or 48 hours at specified temperature and concentration.

Treated wood packaging materials are marked as shown below, with approval of the National Plant Protection Organization (or by other authorized organizations).

\* "Wood packaging materials" are defined in ISPM No.15 as wood or wood products (pallets, dunnages, etc.) used for holding, protecting or transporting cargo.

At entry ports, wood packaging materials are checked if they are properly marked. If not, they will be inspected for plant quarantine purpose.

## Plant Quarantine Notice

### Import Quarantine for Wood Packaging Material

Preventing pest introduction

## Plant Protection Station

Ministry of Agriculture,  
Forestry and Fisheries of Japan

<http://www.maff.go.jp/pps/>

**MAFF**

**For import cargo, please use only the wood packaging materials properly treated and marked in accordance with the international standard.**

X X : ISO Country Code  
 O O O : Identification number of wood packaging material producer.  
 Y Y : Treatment applied (HT, MB, DH or SF)

**Packaging materials requiring the mark (not exhaustive) :**

1) Wooden Skids

2) Wooden Drums

3) Wooden Battens

4) Wooden Crates

5) Wooden Crates

6) Wooden Crates

7) Wooden Boxes

8) Wooden Pallets

9) Wooden Pallets reinforced with Battens

**Packaging materials not requiring the mark :**

1) Wedges made of LVL (laminated veneer lumber)

2) Pallets made of plywood

3) Skids made of particleboard

4) Pallets made of particleboard

5) Dunnage made of particleboard

6) Pallets made of paper

Note : If not marked, the wood packaging materials will be inspected.
