

List of the Research Projects

Name of Project	Name of Researcher
1. Studies on evaluation and food policies	
(1) Studies on the evaluation of agricultural, forestry and fishery policies	
Clarification of the impact on agricultural policy planning by the incorporation of agricultural business	Takayoshi Horikoshi
Analysis of variability of farm income and expenditure	Kunihisa Yoshii
Investigation and analysis regarding safeguard policies in other countries	Kentaro Katsumata, Takayoshi Horikoshi
Studies on the farm income stabilization programs in the US and Canada and their comprehensive evaluations	Kunihisa Yoshii
Study on the agricultural fiscal expenditure of each country	Kunihisa Yoshii, Junko Goto, Kentaro Katsumata
Study on the review of production adjustment and the significance of new supply and demand coordination	Ryohei Kada
(2) Studies on the evaluation of the environment for food, agriculture and rural area policies	
Identification of the flow of organic resources, the evaluation of their cyclic use and the model development	Motoyuki Goda, Mitsuyasu Yabe, Takao Hata
Development of a policy evaluation method regarding the promotion of the cyclic use of organic resources of agricultural origin	Ryohei Kada, Kentaro Yoshida, Motoyuki Goda, Mitsuyasu Yabe
Estimation of economic effects and environmental loads of the recycling of food waste using input-output techniques	Taiji Yoshida, Tetsuro Yakushiji
(3) Studies on the causes of changes in international and domestic food supply and demand and on forecasting of food supply and demand	
Development of an econometric estimation method of technological innovation in agricultural production	Shunji Oniki
Metric analysis of the international price fluctuation of feed grains	Takaya Honma
Development of the world food supply-demand model in consideration of environmental and resources constraints	Sotaro Inoue, Shunji Oniki
Development of a method for the evaluation of the vegetable price stabilization program by item analysis	Toshitaka Katsuki, Shigenori Kobayashi
Establishment of a quantitative method for the evaluation of the impact on domestic industries created by the increase of vegetable import	Toshitaka Katsuki, Shigenori Kobayashi
Analysis of the impact by introducing flexibility into the rice price formation	Tetsuro Yakushiji

Name of Project	Name of Researcher
(4) Studies on food consumption trends and on food consumption policies	
Comparative research of local food products and the regionality	Tomoko Ichida
Demand analysis of milk and milk products in Japan	Junko Kinoshita
(5) Studies on the efficiency and the stability of food supply systems from production to consumption and on related policies	
Study on the market structure of the food manufacturing industry and the structural factors	Koichi Sato
Demand analysis of vegetables by intended purposes	Shigenori Kobayashi, Koichi Sato, Toshitaka Katsuki
Legal analysis of WTO disputes concerning food safety	Norio Fujioka
2. Studies on rural development policies	
(1) Studies on policies for the development of management structure and operation of agriculture, forestry and fisheries	
Study on securing leaders by introducing diverse routes to the involvement in the agricultural industry and regional agricultural structures	Akira Egawa
Clarification of the cost structure concerning agricultural corporations financed by local governments and agricultural cooperatives from the public viewpoint	Gentaro Suzumura
Elucidation of the coordination system of farmland-use in consideration of regionality	Tomoaki Ono
Investigation and analysis of the advancement of efficient and stable agricultural management and its actual status	Osamu Chiba, Takao Hata, Gentaro Suzumura, Tomoaki Ono, Katsumi Muramatsu, Takeshi Fujie, Isoo Tsunekawa, Tsutomu Matsuhisa
Econometric study on the farm household's behaviour during the adjustment process of farmland transaction	Takeshi Fujie
Understanding of the dynamic state of agricultural and rural structures and future prospect by the analysis of agricultural census data	Osamu Chiba, Tetsuya Nakata, Toshitaka Katsuki, Tsutomu Matsuhisa, Gentaro Suzumura, Noboru Hashizume, Akira Egawa, Tomoaki Ono, Isoo Tsunekawa, Takeshi Fujie, Ryuichi Fukuda
Analysis of structural changes in rice-growing regions and factors in the revitalization of paddy agriculture	Noboru Hashizume
(2) Studies on policies for stabilizing farming, forestry and fishing communities and for improvement in welfare of farmers, forest workers and fishers	
Analysis of the revitalization mechanism by long-term nursing-care facilities in rural areas	Yoshihiko Aikawa, Tomoaki Ono, Osamu Chiba, Motoyuki Goda

Name of Project	Name of Researcher
Factor analysis regarding the unmarried status of rural young males and the trend towards nuclear families in hilly and mountainous areas	Yoshihiko Aikawa
Studies on the birthrate decline in rural communities	Tsutomu Matsuhisa
(3) Studies on policies for economic revitalization in farming, forestry and fishing districts, hilly and mountainous areas	
Ascertainment of support measures for the restructuring of regional agriculture and its effect made on local economy	Isoo Tsunekawa
Economic analysis of the total merger of Japanese agricultural cooperatives in terms of cost structure	Ryuichi Fukuda
Clarification of the relationship between farm producers and consumers supported by agricultural cooperatives and cooperative societies under agricultural re-organization	Osamu Chiba
Formulation of the index for rural revitalization and the development of a method of regional diagnosis	Noboru Hashizume, Gentaro Suzumura
(4) Studies on policies for conserving and the better use of resources in farming, forestry and fishing districts, hilly and mountainous areas	
Revitalization of agricultural activities and the nurture of leaders by the restructuring of the production structure of colonial type rice farming	Katsumi Muramatsu
Prediction of trends in the use of regional resources including land affected by social and economic effects in rural areas	Takao Hata, Katsumi Muramatsu, Takeshi Fujie, Akira Egawa, Ryuichi Fukuda
A model of recycling system for organic materials in rural communities	Motoyuki Goda
3. Studies on international policies	
(1) Studies on the trend of international relations regarding food, agriculture and rural areas and on international adjustment policies	
Comparative analysis of the status of agro-environmental policies in advanced countries and the impact evaluation	Masashi Tachikawa, Keiichi Ishii, Tomoko Ichida
Influence on the food supply and demand, domestic agriculture and environment caused by trends in agricultural products trading	Koichiro Akashi
Analysis of overseas movements in policy planning concerning the production, distribution and descriptive labelling of genetically modified agricultural products	Masami Mizuno, Yasuo Watanabe, Tsukasa Chiba, Masashi Tachikawa, Sotaro Inoue, Kyoichiro Adachi, Fumiaki Suda, Norio Fujioka, Mitsuyasu Yabe, Yoshihisa Aita, Ryohei Kada, Tetsuya Nakata

Name of Project	Name of Researcher
Studies on the potential food productivity in world's major regions in consideration of environmental and resources constraints	Masami Mizuno, Takashi Okae, Masashi Tachikawa, Kyoichiro Adachi, Junichi Shimizu, Fumiaki Suda, Akira Ishida, Kazuyoshi Shiraishi, Koichi Nobe, Toshitaka Katsuki, Shunji Oniki
Developing countries' approach to WTO and agricultural development	Tsukasa Chiba
(2) Studies on the trend of food, agriculture and rural areas and policy direction in Europe	
Analysis of the factors in rural revitalization and rural development planning for advanced nations	Masami Mizuno, Yasuo Watanabe, Masashi Tachikawa, Tomoko Ichida, Junko Goto
Comparative analysis of institutional construction regarding rural development policy planning	Keiichi Ishii, Tomoko Ichida
Understanding of the production development in the former Soviet Union by the comparative analysis of agricultural innovation	Koichi Nobe
Expansion of the "public zone" and agricultural policy planning	Fumiaki Suda
(3) Studies on the trend of food, agriculture and rural areas and policy direction in the America and Oceania regions	
Clarification of overseas trends in production, distribution and consumption of genetically modified crops and the impact on the food system	Masami Mizuno, Yasuo Watanabe, Tsukasa Chiba, Masashi Tachikawa, Sotaro Inoue, Kyoichiro Adachi, Fumiaki Suda, Norio Fujioka, Mitsuyasu Yabe, Yoshihisa Aita, Ryohei Kada, Tetsuya Nakata
Clarification of the trading structure of agricultural commodities and trends in the Asia-Pacific region	Sotaro Inoue
(4) Studies on the trend of food, agriculture and rural areas and policy direction in Asia and Africa regions	
Political activities of farmers and their influences over the decision-making in agricultural policy planning in developing countries	Akira Ishida, Yoshihisa Aita
Studies on the interaction between the economic development and the environmental changes in monsoon Asia	Masami Mizuno, Sotaro Inoue
Present state of agro-environmental policies of East Asia countries and concerning issues	Kyoichiro Adachi
Japan's new rural development cooperation	Masami Mizuno
Village structures and rural finance in Southeast Asia	Takashi Okae
