Foreword	1
Contents	2
Organization	4
Departments and Activities	5
Outline of Research	
Outline of Research by Study Category	6
Outline of Project-type Research	9
List of the Research Subjects	17
Research Overview	
Evaluation of the Recycling of Biomass Resources Using the Waste Account	24
Development of World Food Supply and Demand Model with Consideration to Environmental and Resources Constraints	25
Demand Analysis of Vegetables by Intended Purpose	26
Direction of Agri-Environmental Policy in Germany and Related Issues	28
An Analysis of Agricultural Training System Corresponding to Various New Entrants	29
Thoughts and its Changing Process of Theatrical Movement in Rural Area	30
Present Problems of Hilly and Mountainous Areas under Enforcement of the Direct Payment System	31
Necessary Conditions for Continuation of Rural Communities in Hilly and Mountainous Areas	32
Case Studies for Entry of Nonagricultural Business Organizations into Farming	33

Research on the Potential of Food Production Taking into Account Environmental and Resource Limiting Factors in Major regions Around the World	35
Comparative Study of Institutions and Policies for Food Safety	36
Production and Distribution of Non-GM Grains: Implications for Japan-US Food System	38
Rural Industrialization in China: Its Effect on the Interregional Imbalances and the Consequences of Privatization	40
Econometric Analysis of Pastoral Management and Grassland Desertification on the Mongolian Plateau	40

Research Staff Activities	42
----------------------------------	-----------

Research Exchanges

Research Cooperation	48
Exchange of Researchers	49
Attendance at International Conferences and Researches Abroad, etc.	54
Research Seminar	56

Appendix

Publications and Summaries of Selected Research Papers	61
Councilors and Research Staff Members	65
Budget and the Number of Staff	68
Library	68
Internet Home Page	69
